

JMC Medication Log Administering Daily Medications Via Appointment

Paul Freid and Greg Gilman
February 2019

Overview

Medication Appointments for a Day
Edit Student Medications – Inventory tab
(for PRN and other actions outside of
the regular daily appointments)
Have both pages open (2 tabs in browser)

Opening Multiple JMC Tabs in Browser

Open Medication Appointments for a Day
Edit Student Medications in Second Tab
Reasons:

- ▶ One page is for the expected
- ▶ One page is for everything else
- ▶ Be ready for anything
- ▶ Easily switch between the two tabs

Administering Daily Medications via Appointment

Medication Appointments for a Day page

JMC Demo School 2016-2017

Day: 181 - 03/31/2017 - Friday Time Format: 12-hour Print Medication Appointments for a Day

Student	Scheduled	Administered	Appointment	Dosage	Form	Medication
Aasimov, Aaron	11:15AM	<input type="text"/>	Not Administered ▼	1		Zyrtec
Aasimov, Andy	2:30PM	<input type="text"/>	Not Administered ▼	1		Adderall

Green checkmark – will automatically mark the student’s medication as “Administered” and will set the time as of the moment the checkmark was clicked.

The green checkmark will probably be the most used item on this page.

The most practical process will be to click the green checkmark at the very moment the medication was administered to the student (or within a few seconds of the event).

Administering Daily Medications via Appointment

Medication Appointments for a Day page

JMC Demo School 2016-2017

Day: 181 - 03/31/2017 - Friday Time Format: 12-hour Print Medication Appointments for a Day

Student	Scheduled	Administered	Appointment	Dosage	Form	Medication
Aasimov, Aaron	11:15AM	<input type="text"/>	Not Administered ▼	1		Zyrtec
Aasimov, Andy	2:30PM	<input type="text"/>	Not Administered ▼	1		Adderall

Editing the time – may be necessary if you are entering data on this page at a later time than when the medication was actually administered to the student.

Note that data entry is much simpler and always accurate if you quickly check the green checkmark at the moment the medication is given to the student.

Appointment Drop Down List

- Not Administered (default)
- Administered
- Absent
- No Inventory
- No School
- Refused

Administering Daily Medications via Appointment

Medication Appointments for a Day page

What if different quantity administered?

Example 1: no medication given

1. leave as Not Administered

OR

2. Use other actions of appropriate

- a. Absent
- b. No Inventory
- c. No School
- d. Refused

Note: none of these result in a reduction in inventory

Administering Daily Medications via Appointment

What if different amount was administered?

Example 2: If appointment was for amount 2 but only have 1 in inventory

Didn't actually administer intended dosage for appointment, so leave as "Not Administered" on Med Appointments for a Day.

Go to Edit Student Medications page Inventory tab

- Click on the Treatment(PRN) button
- Select the correct medication
- Enter dosage 1
- Enter comment
- Will still show on Medications Appointments and Transactions for that day
- Will remain as "Not Administered" on Med Appointments for a Day page
- Contact the Parent to bring more of this medication

JMC NEWS FOR HEALTH PROFESSIONALS

JMC held its first ever Health Webinar series on Monday August 13, 2018.

The webinar series included sessions for each Health submodule, such as medication log, visit log, etc. as well as an overview session to show how to use the Health module in general and how it relates to other applications in the JMC suite such as Online Teacher. PowerPoint presentations used for these webinars are posted above. The sessions were recorded and within a short time we plan to post links to these videos on this page as well.

OVERVIEW

The Health Module is school nurse software that ties together all of your school's health needs. This computerized health program allows you to easily manage, update, and query your students' health records. The health module allows you to see up-to-date parent contact information, health history, office visit logs, student medication logs, student medical emergency plans, and immunizations. In addition, parents can review their student's conditions, medicines and insurance in Student Information Forms. These forms are easily created in the Attendance module. The student's health information is stored in five categories:
