Build 053019

Attendance – Student - Lists - Alternating grey background for custom fields**.**
Attendance – Student - Add/Reenter Student - If already moved up to next year, re-mark Active and In Attendance for next year. Mark In State Reporting, in next year, if in state reporting this year only
Attendance – Contacts – Edit Contacts - If change case of name, don't complain about duplicate.

Edit - Student Custom Data - Alternating grey background for custom fields**.**

Grading – Transcripts - Print Transcripts - If chose activities, enable commendations checkbox

All Passwords - Now can be to up to 50 characters

Schedules – Student - Edit Schedules - Wider course dropdown
Schedules – Student - Print Schedules - By Quarter option

Tuition/Fees –
- **Statements -** Make fee balance bold and in a box so it stands out
- **Statements -** Display grade next to name of contact's students, sort students in descending grade order
- **Statements -** Show Advisor on statement (pdf and email) if Sort By Advisor
- **Edit Family Org Fee Data -** If user enters a transaction date for a Charge or a Refund, have the next transaction default to that same date. Already do this for payment
- **Edit Family Org Fee Data -** Allow payments of $0.00
- **Edit Family Org Fee Data -** When making a Charge and there is only one student in the family account, have it default to that student,
- **Edit Family Org Fee Data -** Default payment to "Check" instead of "Cash"
- **Student Fee Data -** If the user has sensitive data access, add the Lunch Status Description to student name in the Charge Dialog**.**
- **Student Fee Data -** If user enters a transaction date for a Charge or a Refund, have the next transaction default to that same date. Already do this for payment
- **Student Fee Data -** Allow payments of $0.00
- **Student Fee Data -** Added Quick Link to Edit Family/Org Fee Data
- **Student Fee Data -** Default payment to "Check" instead of "Cash"
- **Bulk Load Charges -** Added Adults as choice.

Minnesota - MCCC - Course Index File - updated codes for Early Education Standards.

Build 051419

Health - Medication Log - Edit Student Medications –
- Added date and user to the "discontinued" check box in the Medications tab records
- Added "Notification Threshold Enabled" checkbox to Medications tab records
- Records in Medications tab now sort to put the discontinued meds at the bottom of the list
- New option to Include/Exclude Optional Fields for records in Medications tab
- Comment sized larger in Medication tab records
- All 3 tabs now include the strength and units with the proprietary name
- When adding new record on Appointments tab will default the medication drop down list if student has only one medication (not discontinued).

Health - Medication Log - Medication Appointments for a Day –
- Page now can go full screen
- New column to display Remaining Doses, including red background if below threshold and threshold is enabled, also including gray background for days other than today
- 2 new options in Action drop down list: Taken At Home and Other.

Health - Medication Log - Medications Inventory - if Inclusion set to "Students/Medications Below Threshold" will only include if student/medication checked as "Notification Threshold Enabled"

Health - Immunizations - Exemption Report - Added recently added Religious exemption to this report.

Minnesota - MCCC - MCCC Staff File - Allow teacher file folder numbers of length 6 or 7 now

Nebraska - ADVISER - Synchronize Courses - New option to update all courses and all dependent resources, including studentSectionAssociations and grades.

Nebraska - Special Education - Special Education Status - New option utilizes SSEPA records in JMC Special Ed History and reports student special ed status for a given day, includes all fields from SpedHist.

Nebraska - Special Education - Update Special Education (SSEPA) via ADVISER API - New option to update all SSEPA records via ADVISER - only valid if SSEPA maintained in other software (not JMC), which is the case for all NE clients.

Wisconsin - WISEdata - Update Course - added on-page instructions.

Build 043019

Attendance – Days - Special Days - Added All Grades option.

Attendance - Student Lists - Added Count of Credits and Count of Discipline Violations items.

Grading – Reports - Grade Point Averages - Added a Live/Current GPA option.

Online Payments - Raised Max Deposit option to $5000

Build 041819

File - Application Security (Replaces User Privileges) - New privileges to control Message Center, Web POS, and Administrator access.

File – Application Security – Password Security - More robust password security enforcement options.

File – Online Settings – Parent Access – Parent Alerts – Added a Late Scores Alert

Edit - Student Data - Added Advisor2 data element.

Attendance - Student - Lists - Added Advisor2 data element; Advisor is now available when logged in to the district.

Schedules – Student – Edit Schedules - Added a Term filter dropdown to view part of the school year.

Build 032819

Activities – Edit Activity Defs - New option to set **Include On Transcript** per activity.

Health – Medication Log - Medication Appointments for a Day – Fixed printing issue.

Schedules – Course - Edit Course Data – When adding new section to a course, use the same settings as the previous section for Days, Teacher and Room by default

Tuition/Fees – Reports - Fee Summary Report - Fixed recent bug to display cents.

Email Attachment Options – Now on these reports
- **Midterm Report Cards**
- **Report Cards**
- **Report Card Forms**
- **Standards and Benchmarks Forms**
- **Student Info Forms**
- **Progress Reports**
- **Print Schedules**

New Enrollment Settings - New page to customize new enrollment options.
New Enrollment - Added expected Start Date.

Iowa - Lunch – Free/Reduced - Direct Certification Import – Bug Fix for 3 non-migrant file options
Iowa – Health – Immunizations - IRIS Immunizations Import - Various improvements.

Wisconsin - WISE Data Update Terms - New page.

Build 030119

Attendance – Contacts - Edit Contacts - Mark inactive students of this contact with '*'

Discipline - Office Merge Discipline Referrals and Teacher Discipline Referrals – Now use same Incident Location

Tuition/Fees – Reports – Print Statements OR Print Individual Fee Invoices - Fix text wrapping issue

Coaches App – Now allows attachments

Build 022719

File – Administrator Options – Import Student Photo Linking File - Import Photos - No longer allow BMPs.

Attendance – Student – Lists - Allow removal of first sort key if secondary key exists.

Health – Immmunizations - Immunization Compliance - Updates for MN & IA - Updated for latest requirements.
Health - Medication Log - Edit Student Medications - Medications tab - The **Student No Longer Taking This Med** check box on the records in the Medications tab will offer to cap off the master appointment record as well as delete all future unkept daily appointment records.

Message Center - If selecting by Grade, additional option to subselect by Gender.
Message Center - External Communication Detail Log – (New Menu Item) - Now logs all emails, phone calls and texts from all parts of JMC with specific details of each transaction.

Iowa - Import LIEP from Prior Year - This option is now disabled each year until IDOE certified.
Iowa - Import Special Education History from Prior Year - This option is now disabled each year until IDOE certified.

Build 022519

Main page - Show pending New Family Registrations

Discipline – Data – Edit Student Discipline - Added option to send email to Primary Contact and Advisor when creating new record.
Discipline – Data - Merge Discipline Referrals - Added option to email advisor.

Tuition/Fees – Data - Fee Accounts – (New Menu Item) - Ability to attach an account to each fee for sub-reporting
Tuition/Fees – Data – Edit Family/Org Fee Data - Reorder columns to reduce horizontal scrolling.
Tuition/Fees – Reports – Print Statements - Fixed pagination issue and fold mark location.
Tuition/Fees – Reports - Fee Summary – When you choose Payments Only under the Accounts menu, added a Payment Types choice: All, Cash Only, Check Only, Credit Only. If more than one payment, now lists each payment on subsequent lines.
Tuition/Fees – Reports - Fees List - Added subtotals by fee.
Tuition/Fees – Reports - Fee Account Payments Report – New – If you have set up Fee Accounts under Tuition/Fees – Data – Fee Accounts, and then tied those Fee Accounts to specific fees under Tuition/Fees – Data – Edit Fees, then you can run this report to see what has been paid towards those Fee Accounts.

Coaches App – When searching for students, now shows limited list of matching students for speed.

Build 021419

Discipline – Reports - Discipline Query - Added Time, Motivation, Removal Date, and Removal Length to report.
Discipline – Reports - Discipline Summary - Added sub-reports "Referrals By Severity", "Referrals By Removal Length", and "Referrals By Removal Date". Added a Severity selection choice.

Edit Student Data - Fixed email validation so didn't get stuck on popup dialog.

Email ReplyTo - All pages utilizing ReplyTo now remember last setting.

File - Online Settings – Teacher tab - Option to allow teachers to see their students' communications records from any teacher.

Grading – Transcripts - Print Transcripts - Improved coding to make the report preparation time much quicker.

Health – Medication Log - Edit Student Medications – Appointments tab - Made the default appointment type as 'Daily" for new records.
Health – Medication Log - Medication Appointments for a Day - Fixed the inventory issue where editing the time for any action *other than "*Administered" would make an errant inventory record.
Health – Medication Log – Define Medications - When defining a med, we no longer try to validate the Strength field as it is not really used for anything - like inventory.

Lunch – Reports - Benefit Issuance List - Added a date range selection.

Online Payments - Added "Failed", "Failed Deposit", and "Failed Refund" to the Status selection dropdown. Better labeling of failed ACH payments throughout the software.

Schedules – Student - Edit Schedules - Allow user to add attachments when emailing all teachers of this student.

Tuition/Fees – Reports - Fee Invoices - Handle larger custom user message.
Tuition/Fees – Reports - Fee Summary Report - Added a "Charges Only" option.

Web Point of Sale – Preferences - Option to disable "Enter" key as default selecting Student 2nd Lunch.

Iowa - SRI - Assign Seniors a Diploma Category - Updated to handle switch from Diploma Type to Diploma
Iowa - SRI - Drop a Grade - Fixed default drop code to "10".
Iowa - Direct Certification - Migrant - Initial version
Iowa - Lunch - Data - Edit Student Lunch Data - Updated to display records imported from Direct Certification Migrant file as "Other Categorically Eligible".
Iowa - Lunch - Reports - Lunch Status - Updated to display records imported from Direct Certification Migrant file as "Other Categorically Eligible".
Iowa - Lunch - Reports - Benefit Issuance List - Updated to display records imported from Direct Certification Migrant file as "Other Categorically Eligible".

Minnesota - File - Administrator Options - Ed-Fi Settings - MN Ed-Fi options
Minnesota - Student Data - MARSS tab – Add new JMC Building drop down list to MARSS status line
Minnesota - MARSS - Calculate Attendance – Utilize new JMC Building in MARSS status line
Minnesota - MARSS - Capture Files – Utilize new JMC Building in MARSS status line
Minnesota - Counting All Students (EdFi) - Start Year - New option
Minnesota - Counting All Students (EdFi) - Update Grade - New option
Minnesota - Counting All Students (EdFi) - Update Student - New option
Minnesota - Counting All Students (EdFi) - Delete Student - New option

Nebraska - ADVISER - Start Year - Reordered buttons on Student tab to reflect dependencies (cut down on dependency errors). Also fixed logging of SEOD event for Near Real Time.

Wisconsin - WISEid - **Import Person Upload File -** Handle student legal names
Wisconsin - WISEdata - Update Grade - Check for reasonable EOY day number (must be at least Day 150). Public Schools
Wisconsin - WISEdata - Update Student - Check for reasonable EOY day number (must be at least Day 150). Public Schools

Build 011819

Web Point of Sale - Preferences - New checkbox that says, **Show Last Student Processed After a Transaction**.

Period Attendance – Reports - Form Letter – New checkbox that says, **Include Period 0.**
Period Attendance - Reports - For Student(s) - Condensed the Comment printing to remove excessive blank lines.

Schedules – Student - Print Schedules - A & B Days now sort correctly.

Iowa - IRIS import changes

Build 011019

Discipline – Data – Merge Discipline Referrals – The Problem Behaviors field can now be edited before you click on Accept or Reject.

Tuition/Fees – Reports – Print Statements – Fixed an issue where not all transactions were showing up to print.

Build 010419

Direct Certification Import - Trim spaces from State ID for matching.

Online Payments – Update for PaymentSpring.

Minnesota - Student Data - MARSS tab – add new "Ancestry" list for adding rows of expanded ancestry data

Build 121818

Attendance - Student - Drop Student - Will also inactivate a student in next year if the database has already been rolled up for the next year.

Edit - Delete a Student - Don't delete certain data if student existed in past years' data.

Grading - Test Scores - Import Test Scores - NWEA test name fixes, also added Algebra I, Science 9-12, and Geometry tests/subtests for NWEA.

Health - Medication Log - Edit Student Medications - added Date Submitted to student medications drop down lists to help in selecting correct medication when similar medications are in the list; more validations for requiring medication, start date, and end date to be specified for appointments.

Online Payments - Option for school to force parent payments to fee items, not to the balance.

Schedules – Course – Edit Course Data – Warning when changing a Grading Scheme with existing data.

Web Point of Sale – Added these options in Web Point of Sale preferences.
- Enable Charge Sound Checkbox
- Enable Low Balance Sound Checkbox
- Disable Cash Key Checkbox
- Show Student Photos Checkbox

Web Point of Sale – Added these new features.
- The last student that went through the Point of Sale will now stay on the screen until the next student is chosen.
- 2nd Lunch Warning – Clear key on Mac and Delete key on Windows selects the Cancel button
- 2nd Lunch Warning – Enter key now selects the Charge 2nd Lunch key
- No Alert Sounds for Free students
- Line numbers and Student IDs now show up in the Delete Transactions section.

Iowa - ISASP - ISASP Extract File - new roster (extract) file for Iowa testing.
Iowa – Former Bar Code options moved into **Grading – Test Scores** menu. Iowa Assessments may still be used by some schools for various reasons.

Wisconsin - WISEdata - Update Student - update to handle potential conflicts where third party special education software owns the special education records. Also, updated for new 18-19 changes.

Wisconsin - WISEdata - Update Grade - update to handle potential conflicts where third party special education software owns the special education records.

Build 112618

Schedules:Student:Edit Schedules - Email All Teachers of This Student - Will only email teachers from current term. MUST set your calendar on Attendance:Calendar:Term Dates in all buildings you want use it in. That way, our software knows what term you are in based on the date, and thus, will send to the correct teachers. You only need to set the terms that school building uses.

Build 101918

Attendance - Student - Lists - Added student license plate number.

Grading - Test Scores - Export Aspire Roster - update to AVOCET ACT Aspire file specs as published 1.22.18 - added 3 columns which are left blank. Also, was Wisconsin-only, now for any state.

Grading - Test Scores - Export Aspire Roster - Added fields: Homeless, Parent in Military, In Foster Care.

Grading - Utilities - Edit Comments - fixed issue introduced with WI Certificated Program Status where comments disappear after editing.

Schedules - Course - Edit Course Data - Added warning if grading schemes are updated.

Schedules - Student - Edit Schedules - When emailing teachers, now includes options for cc: and bcc:

Iowa - SRI - Create File for Iowa Dept of Ed - fixed an issue when no students selected.

Minnesota - Early Education - Early Education Student File - Improved logging of validation errors for EES record type.

Minnesota - STAR - Various - Handle scenario where two sections of course meet same period.

Nebraska - ADVISER - Batch Processes - Better logging of process.

Nebraska - ADVISER - Import Program History from Prior Year - Fixed an issue with CTE Program Participation Level.

Wisconsin - WISEdata - Update Grade - student resource now includes legal name (if one exists for the student).

Wisconsin - WISEdata - Update Course - fixed issue with Career Education Program for non-CTE courses.

Wisconsin - WISEdata - Update Roster - fixed issue with Career Education Program for non-CTE courses.

Wisconsin - WISEdata - Update Student - student resource now includes legal name (if one exists for the student).

Build 100918

Grading - Test Scores - Export FAST Roster - Added option to specify the student ID choice. Options include JMC student ID, state ID, or blank.

Health - Immunizations - Edit Student Immunizations - added Meningococcal B

Health - Medication Log - Edit Student Medications - changed verbiage in headers, buttons, printout - "Doses" becomes "Quantity"
Health - Medication Log - Medications Appointments and Transactions - changed verbiage in headers, printout - "Doses" becomes "Quantity"

Iowa - ELL Extract - ELL File Extract - ELL status now correctly reports code of "8 - Pending" as P in the file extract.

Minnesota - MCCC - MCCC Staff File - added back validation for Instructional Method - now only checks for "Not Specified" (all state reportable course must have instructional method specified).
Minnesota - Student Data - Race-Ethnicity tab – add new "ancestry" list for adding rows of expanded ancestry data

Wisconsin - Edit - Student Data - new/modified Program History record types:
- Single Parent
- CTE/CCR
    - Career and Technical Education (CONCENTRATOR)
        - IAC Codes drop down list will populate based on the Career Pathway (cluster) specified
        - Program Areas - allow for up to 4 of these for students who are concentrators in multiple program areas
    - Certified Career Education Program
    - Non Certified Career Education Program
    - State Endorsed Regional Career Pathway Program

Wisconsin - Edit - Student Data - Entry tab - added row "Not Born in US State", to be used instead of existing code "ZZ - Not Born in US or Territories".
Wisconsin - File - Administrator Options - Ed-Fi Settings - new option to specify grade levels (either grade 9-12 or All Grades) for submitting student grades endpoint.
Wisconsin - Grading - Utilities - Edit Comments - added column to allow Wisconsin clients to associate a comment with a Certificated Program Status. This status can then be added to a student's schedules/grades record by either the teacher or office staff. The Certificated Program Status is then included in the student's Grades endpoint for CTE reporting.
Wisconsin - Schedules - Course - Edit Course Data - state specific course tab - new data elements: Certificated Education Program (multiple select), CTE Career Pathways
Wisconsin - Schedules - Course - Edit Course Data - state specific section tab - new data element Career Education Program; Dual Enrollment - codes update, loads specific for a year
Wisconsin - WISEdata - Start Year - new page that aids with tasks for the start of the school year.
Wisconsin - WISEdata - Update Course - (Public schools only) - new page that allows for a course and all dependent resources to be updated at once.

Build 090718:

Background Notifications - Changed to only notify contacts with students in current year.

Health - Health Note - Edit Student Health Note - Increase max note length to 50000.

Lunch - Reports - Summary - Show "Online" for Online Payments.

Online Payments - Fixed a sorting issue.

Build 082418:

Attendance - Reports - For a Day - Export fix.

Attendance - Staff - Substitutes - look for same names/username on other teachers.

Attendance - Staff - Teachers - look for same names/username on other teachers.

Lunch - Data - Edit Family Lunch - Printing fix.

Online Payments - multiple changes

Web Point of Sale - Only show price groups for the current building.

Web Point of Sale – Ability to click on Al A Carte items to add to transactions.

Minnesota - Student Data - MARSS tab – add new status end code of "66" to drop down list

Wisconsin - Edit - Student Data - retire 504 in Special Ed History tab; fix Setting drop down list for Special Ed History records
Wisconsin - Attendance - Student - Drop Student - disallow the drop if:
   • student has open/in-progress Program History or Special Ed History records
   • student is graduating and is in Special Ed. In that case they must have SPED Exit Code "Exited district due to enrollment exit code"
   • student is in Special Ed but does not have a correct match of exit date and reason exited.
Wisconsin - Year End - Mass Exit Students - added validations for WI-specific exiting issues (Program or SPED History exit dates/info) and also added a summary report.

Build 081418:

Attendance - Staff - Substitutes - new page where substitute teachers can be assigned to teachers for a date/time span allowing restricted access to Gradebook and Attendance reporting.

Edit Online Settings - Option to allow new family enrollment module.

Edit Activity Coach/Advisor - Fix for checking duplicates.

Edit Custom Fields - Changed sort order so it is consistent with Parent/Student Submission.

Online Payments - New module for accepting credit card and ACH payments for food service and fees/tuition payments.

Web Point of Sale - A la carte header.

Web Point of Sale - Hide price groups based upon currently logged into building.

Web Point of Sale - Navigate easily back from delete a transaction.

Iowa - SRI - Create File for Iowa Dept of Ed - fixed date formatting issue for Term Start Date.
Iowa - ELL Extract - ELL File Extract - fixed inclusion issue for ELL Status of "8".
Iowa - Lunch - Free/Reduced - Direct Certification Import - fixed issue where Direct Certified Reduced was not importing if student was Determination Made Approved for Free Last Year
Iowa - Lunch - Data - Edit Student Lunch Data - now using Iowa-specific labels for SNAP (Food Assistance) and TANF (FIP)

Iowa - Lunch - Reports - Benefit Issuance List- now using Iowa-specific labels for SNAP (Food Assistance) and TANF (FIP)

Nebraska - Edit - Student Data - fixed default value for new student for English Learner Status
Nebraska - ADVISER - various - includes all updates for 18-19.
Nebraska - ADVISER - Start Year - Update Tables - Update Courses - fixed an issue for handling unexpected values in the course description field

Wisconsin - Edit - Student Data - validation for Program History Start Date (must be on or after July 1); remove Parent In Military from Program History record type drop down if is prior to 18-19.
Wisconsin - Lunch - Free/Reduced - Direct Certification Import - fixed issue where Direct Certified Reduced was not importing if student was Determination Made Approved for Free Last Year; added sort options to import summary report; updated the eligibility codes/descriptions to match current version from WI Direct Certification web page.
Wisconsin - Lunch - Data - Edit Student Lunch Data - now using Wisconsin-specific labels for SNAP (Food Share) and TANF (W-2 Cash Benefits)
Wisconsin - Lunch - Reports - Benefit Issuance List- now using Wisconsin-specific labels for SNAP (Food Share) and TANF (W-2 Cash Benefits)

Build 071618:

Edit Course Data - For Iowa, fixed bug on State-specific Section tab when updating.

Iowa - Import LIEP From Last Year - Update Language.

Wisconsin - Various updates.

Build 070518

Attendance – Contacts – Contact Form Signatures – Ability to run a report with sorting, printing and exporting
Attendance – Contacts – Contact Form Signatures – Added student names underneath the family names
Attendance - Contacts - Merge Emergency Contact Submissions - New page to manage submitted emergency contacts from Parent Student Registration
Attendance - Reports - For A Day - Added checkbox "Show Kindergarten Subgroups"
Attendance - Staff - Teachers - added "Add Teacher" and "Remove Teacher" buttons
Attendance - Student - Lists - user interface update
Edit – Merge Student Submissions – Not Finished/Finished Lists - Added Last Registration Date and Time to report
Edit – Merge Student Submissions – Not Finished/Finished Lists - Added Export and Print buttons to report
Grading - Transcripts - Print Transcripts - made changes so it would execute faster
File - Define Custom Fields – Custom Field Names and Custom Field Data length both set to 300 characters
File – Student Registration Settings – Added a checkbox to Include Inactive Students
File – Student Registration Settings - Added a checkbox to make Custom Fields Required, so parents must put data into the field before moving on in Parent Registration
Health - Health History - Edit Student Health History - attach documents
Health - Medical Emergency Plan - Edit Student Medical Emergency Plan - attach documents
Lunch - Reports - Balance Sheet: Fixed Active accounts showing up when Inactive is selected
Period Attendance - Reports - For A Day - Added checkbox "Show Kindergarten Subgroups"
Period Attendance - Reports - Absent/Tardy Check - Added checkbox "Show Kindergarten Subgroups"

Iowa Certified Build for 2018-2019
Iowa - Attendance - Student - Add/Reenter Student - updated entry codes

Iowa - Edit - Student Data - updates to tables for Reason Not Assessing Math/Reading/Science, LIEP Status, Preschool Attendance
Iowa - Edit - Student Data - fixed issue where setting diploma type for one student was affecting other students as well
Iowa - Import Special Education from Prior Year - new option in Iowa menu allows importing of special education data updates that occurred after roll-up
Iowa - Import LIEP from Prior Year - new option in Iowa menu allows importing of LIEP data updates that occurred after roll-up
Iowa - Schedules - Course - Edit Course Data - state specific course section tab - origination data element updated
Iowa - SRI - Import Enrollment History from Prior Year - updated for 18-19
Iowa - SRI - Create File for Iowa Dept of Ed - updated for 18-19
Iowa - SRI - ELL Extract - updated for 18-19

Minnesota - MCCC - MCCC Student File - bug fixes for suffix (remove trailing blanks) and state reporting grade (was only using state reporting grade for StudentScheduledRecord type, now uses for all 4 record types). Both fixes are as per Karen Millette directions.
Minnesota - Perkins - Perkins Course Codes - updated for 17-18 & 18-19
Minnesota - Schedules - Course - Edit Course Data - state specific course tab - updated Early Education Site Based Initiatives

Nebraska - ADVISER - Import Programs - updated for 18-19 school year
Nebraska - ADVISER - Import Special Education History - updated for 18-19 school year
Nebraska - ADVISER - Real Time - initial version
Nebraska - ADVISER - menu was reorganized
Nebraska - ADVISER - Start Year - initial version
Nebraska - ADVISER - Batch Processes - initial version
Nebraska - ADVISER - Update Student – handles EdFi setting for whether to update SSEPA (special ed) from JMC
Nebraska - ADVISER - Update Transcripts and Post Graduate Activities Update Post Graduate Activities was not posting a summary report upon completion – this is now working correctly.
Nebraska - ADVISER- Update Discipline/Student/Students - fixed issue when removal date is blank but is expected
Nebraska - ADVISER - Update Student/Students - fixed more dependency issues

Wisconsin - Edit - Student Data - Programs tab - more Program History records types, more special fields related to some record types
Wisconsin - Edit - Student Data - Special Education tab - new field for Special Education Reason Exited
Wisconsin - Schedules - Course - Edit Course Data - state specific course tab - displaying additional information about course - help in identifying courses that will require a new course code
Wisconsin - WISEdata - Update Discipline/Student/Grade - fixed issue when removal date is blank but is expected
Wisconsin - WISEdata - Update Grade - (Private Choice schools only) - fixed issue that was causing AJAX error, also updated the summary report to exclude non-errors that were appearing in the summary
Wisconsin - WISEid - WISEid Personal File Export - updated for 18-19
Wisconsin - State Course Codes - State Course Codes - New report to assist with state course code conversions during 18-19

Build 051118

Activities Module - formerly a submenu of the Attendance module, Activities is now its own module
Activities - Edit Activity Coach/Advisor - new page that allows you to define a list of coaches & advisors that can be associated with an activity on the Activities - Edit Activity Defs.
Activities - Edit Activity Defs - updated to allow you to assign multiple coaches/advisors to an activity
Activities - Edit Activity Rosters - print button option updated to include multiple coaches/advisors
Attendance - Calendar - Term Dates - Minor revision to handle rare day names related issue.

Discipline - Data - Merge Discipline Referrals - Options to email teacher and primary contacts.
Attendance - Staff - Teachers - Ignore password field when clearing out a teacher.
Attendance - Staff - Teachers - Export option has been updated appropriately for all states
Attendance - Calendar - Term Dates - Fixed issue when had same date in calendar twice.
Grading - Test Scores - Import Test Score - menu of test score importing options has been restored to its correct state - removed ITED and reintroduced Iowa Assessments
Log sign-ins for all apps

Minnesota - Attendance - Student - Lists - Correctly shows grade level for PS students.
Minnesota - MARSS - Calculate Attendance - If special days calendar says grade level gets out of school earlier than end of year day, reflect that fact in STATUS END DATE.
Minnesota - MCCC - MCCC Staff File - Stop validations for Instructional Method.

Wisconsin - WISEdata - Delete Student - handles more resource dependencies; enhanced Ed-Fi event logging
Wisconsin - WISEdata - Update Grade - handles more resource dependencies; enhanced Ed-Fi event logging
Wisconsin - WISEdata - Update Student - handles more resource dependencies; enhanced Ed-Fi event logging

Build 042618

Emailing Reports: Option for multiple cc and bcc recipients when Random selected:
>   Communication Report for Student
>   Discipline Report For Student
>   Midterm Report Cards
>   SnB Report Card Forms
>   Print Schedules
>   Print Standards and Benchmarks Forms
>   Print Student Info Forms
>   Period Attendance Form Letters
>   Print Progress Reports
>   Print Report Card Forms

Emailing Reports: Emailing cc and bcc:
>   Send Email Messages
>   Message Center

Attendance - Contacts - Contact Forms Signatures – Added print, export, and sort options.
Attendance - Staff - Teachers – redesigned page so will display for one teacher at a time but will display all fields for that teacher. You can still get a full list of the teachers by using the Export button on the page.
Edit - Mass Change Fields - Added option for Adults. Added option for Active Only, Inactive Only, or All.
Edit - Student Data (all states)- migrated student sensitive data to new tab on these pages; old Edit Student Sensitive Data page is still available as well
File - Online Settings - Parent Access option - Formerly, the Report Card drop down list controlled which term information was available for both report cards and schedules. That has been split up into two drop down lists so next term's schedule can be made available while the current term's report card is still visible.
Grading - Reports - Grade Report Progress Report - Changed linkbutton to labels.
Grading - Reports - Print Progress Reports - Don't reset selection after preview
Grading - Test Scores - Export NWEA CRF File - new School State Code options for all states other than Nebraska (Nebraska uses special formatting)
Grading - Test Scores - Import Test Scores - new FAST importer updates - now handles Early Reading and Math (composite, percentile scores), and aMath (theta, scaled, percentile scores) as well as quote-wrapped text in column headers; also new AAPPL test category
Grading - Transcripts - Bring Up To Date - Lengthened page timeout to 10 minutes.

Health - Medical Emergency Plans - Medical Emergency Plans (Report) - replaced truncated narrative with link to the student's actual medical emergency plan.

Integrations - Canvas Import - strip trailing blanks from import fields for better matching

Integrations - OneRoster - Include Homeroom

Integrations - Payschools - handle non integer junk input

Integrations - RocketScan - Use Lunch contact if available.

Message Center - Send Messages- Changed course selection from Listbox to DropDownList.

Period Attendance - Data - Edit Reasons and Cutoffs - Retroactive requires JMCADMIN backdoor.

Schedules - Course - Class Lists - longer pause before print to allow large classes with pictures to preview.

Schedules - Course - Course Data List - Teacher Section Export – (all states) update the Teacher Section Export to include everything from the Teacher Info option update (report) plus include the staff state ID as well.

Schedules - Student - Edit Schedules - Option to quickly email all teachers for the student.

Schedules - Student - Reference Card - Print Phone 1 phone number no matter what type it is.

Iowa - Lunch - Free/Reduced - Import Direct Certification - updates to importer for Potential Students and ELookUp files to include new OtherFree and OtherReduced columns; also bug fix related to these updates from earlier update to Student in SRI file

Minnesota - Grading - Utilities - Edit Grade Values - New column for state reporting grades (used in MCCC reporting); also includes new MCCC Student File Quick Link

Minnesota - MCCC - MCCC Course Index File - Validate state course codes in summary.

Minnesota - MCCC - MCCC Student File - Transition to Schema V4, requires new state reporting grades (validation when capture MCCC Student file, similar to "missing grades" validation); also includes new Edit Grade Values Quick Link

Minnesota - Schedules - Course - Edit Course Data – Changed State Course code field from a text box to a searchable drop down list. Also, if valid state course code is selected the state course code description will display to the right of the drop down list. Also updated state course code sets (17-18 and future years) for several EE course data elements
- EE Curriculum
- EE Assessment Tools
- EE Site-based Initiatives
- EE Instructional Approach
- EE Implementation status

Minnesota - STAR updates
- STAR licensed code updates
- STAR nonlicensed staff - new code table, display on nonlicensed staff edit page

Minnesota - Student Data - MARSS data element update - New checkbox for inclusion of a MARSS status line. By default this will be checked so that the record will be included. In some circumstances, such as preschool students, some of a student's MARSS status line records could be excluded by unchecking the box for a row.

Nebraska - ADVISER - more EdFi Event Logging, including Launcher

Nebraska - ADVISER - automatic nightly attendance submission

Nebraska - ADVISER - Delete Student - fix order of deletions to handle dependencies

Nebraska - ADVISER - Update General - Sessions - log EdFi Events so unused terms are not included in error count

Nebraska - ADVISER - Update Tables - bug fix - was not deleting old codes before importing new

Nebraska - Attendance - Reports – Drop/Add - fixed bug when manually editing attendance row would add drop code of 0 instead of leaving null which was affecting Drop Add Report.

Nebraska - Attendance - Student - Edit Attendance - fixed bug when manually editing attendance row would add drop code of 0 instead of leaving null.

Nebraska - File - EdFi Events - added columns for course number, section ID, discipline incident ID, attendance date, student entry date, teacher number, building number; reorganized the columns

Nebraska - File - EdFi Launcher NE - Now has drop down list for student selection

Nebraska - Schedules - Course - Course Data List - Teacher Option- updated to handle more state-specific columns for the Teacher Info option

Wisconsin - File - EdFi Events - added columns for course number, section ID, discipline incident ID, attendance date, student entry date, teacher number, building number; reorganized the columns
Wisconsin - Schedules - Course - Course Data List - Teacher Option- updated to handle more state-specific columns for the Teacher Info option
Wisconsin - WISEdata - more EdFi Event Logging, including Launcher
Wisconsin - WISEdata - Update Discipline - disable for Private Choice profile
Wisconsin - WISEdata - Update Grade - fixed dependency issues - now looping through students and doing deletions/submissions in proper order; updated EdFi Event logging accordingly; fixed issue with discipline data submission
Wisconsin - WISEdata - Update Grade - Validation of StudentSectionAssociation failed Error [100015] The beginDate and endDate cannot be outside the entryDate and exitWithdrawDate of the studentSchoolAssociation
Wisconsin - WISEdata - Update Grade/Student - For SSAWE if entry date is future date then do not send SSAWE but tell user in summary (entry date is future date).
Wisconsin - WISEdata - Update Roster - Sessions- log EdFi Events so unused terms are not included in error count

Build 020718

Attendance - Reports - For a Student - Changed "by advisor" output so user can print out one student on each page.
Grading - Test Scores - Import Test Scores - new ACT Aspire and STAR importer options.
Grading - Test Scores - Test Score Selections - updates to ACT Aspire and STAR test categories.
Schedules - Student - Reference Cards - Will use top ranked phone instead of only home phone.

Minnesota - Grading - Utilities - Edit Grade Values – New column to allow user to specify the MCCC approved grade for each JMC letter grade in use. All grades for each building will need this data element populated beginning with 2017-2018 MCCC Student file submission beginning on April 2, 2018.
Minnesota - Schedules - Course - Import Course Data - Updated to import Perkins TSA and MCCC Rubric Levels.

Nebraska - ADVISER - Update Attendance - Added a building drop down list as attendance is submitted for one building at a time.
Nebraska - ADVISER - Update Tables - This new page includes options for updating tables dynamically. Tables include Schools, Local Education Agencies (LEAs), Staff, and Courses (state course codes).
Nebraska - File - Administrator Options - Ed-Fi Settings - option to enable School (half/full day) and Section (period) attendance.
Nebraska - Scheduling - Edit Course Data - State Specific Course tab - changed State Course Code from simple text box to drop down list where user can type all or part of state course code, title, or subject to see list of possible codes.

Wisconsin - Schedules - Course - Import Course Data - Updated to import Ed-Fi Course Code.
Wisconsin - WISEdata - Update Discipline - New event logging on page - record is created/displayed every time you submit discipline data, including record and error counts.
Wisconsin - WISEdata - Update Grade - New event logging on page - record is created/displayed every time you submit discipline data, including record and error counts.
Wisconsin - WISEdata - Update Roster - New event logging on page - record is created/displayed every time you submit discipline data, including record and error counts.
Wisconsin - WISEdata - Update Student/Grade - Updated to clear out old SSA and SSAWE for any building for a student, not just student's current building.
Wisconsin - WISEid - **Export Person Upload File -** Now includes student legal names as entered on Edit - Edit Student Sensitive Data.

Build 010818

Attendance - Staff - Rooms - Allow up to 200 room locations.
Discipline - Data - Edit Student Data - Added student name to printout when click print button on this page.
Grading - Test Scores - Import Test Scores - more NWEA importer updates for fall 2017.
Health - Immunizations - Exemptions - Updated to include meningococcal immunization exemptions.
Lunch - Report - Lunch Status - Updated to handle new "Medicaid" detail for Direct Certified students.
Lunch - Report - Benefit Issuance List - Updated to handle new "Medicaid" detail for Direct Certified students.
Minnesota - MARSS - Capture MARSS (Fall, End of Year) Files - Fixed a rare issue where some grade zero students were not getting their grade level set correctly in the MARSS B file.
Schedules - Student - Print Schedules - Updated to allow for expanded room numbers (bug fix).
Tuition/Fees - Data - Edit Family/ORG Fee Data - Include any contact with transactions even if not currently a fee contact.
Wisconsin - **Lunch - Direct Certification -** Direct Certification for Meal Benefits has now been expanded to include Direct Certification for Free or Reduced Price Meals due to Medicaid (codes M and Z, respectively).

Build 010318

Health - Health History - Health History Screening - Added a field: Last Completed Date.

Build 122117

Nebraska - ADVISER - Delete Student- Newly added option for deleting a single student for multiple resources.
Nebraska - ADVISER - Update Parents - Enhanced activity logging and corrected totals; updated to include only primary contacts of current students; added efficiencies to process.
Nebraska - ADVISER - Update Student- Newly added option for updating a single student but for multiple resources.
Nebraska - ADVISER - Update Students- Enhanced activity logging and corrected totals.
Nebraska - ADVISER - Update Transcripts and Post Graduate Activities – Enhanced activity logging and corrected totals.
Wisconsin - WISEdata - Update Student/Grade (Private Choice only) – revert special education data from special education history back to original student data elements

Build 121217

Attendance - Reports - Attendance Totals - Handle students from any building number (even if unrecognized).
Grading - Reports - Grade Report-Progress Report - Added an Advisor column and option to sort by Advisor.
Health - Visit Log - Edit Actions - new option to allow user to define their own visit log actions. Once defined these actions show up in drop down lists, reports, etc. just as the predefined actions do.
Health - Visit Log - Edit Reasons - new option to allow user to define their own visit log reasons. Once defined these reasons show up in drop down lists, reports, etc. just as the predefined reasons do.

Health - Medication Log - Edit Student Medications - Added export options.
Schedules - Study - Study Lists - Added an export option.

Build 112917

Wisconsin - WISEdata - Update Student/Grade - now correctly deletes pre-existing Student Academic Resources (SAR)
Wisconsin - WISEdata - Update Student/Grade - addresses issue where Student Special Education Program Association (SSEPA) end date incorrectly reported if multiple SSEPA records for a student
Wisconsin - WISEdata - Update Student/Grade - now correctly updates Student Program Association (SPA) by including a school reference
Nebraska - ADVISER - Update General - moved some buttons to other pages
Nebraska - ADVISER - Update Students- formerly Update Student Grades and Section Associations, now includes some items formerly on Update General
Nebraska - ADVISER - Update Parents - new page for ADVISER data submission, includes some buttons previously available on Update General
Nebraska - ADVISER - Update Programs - new page for ADVISER data submission, includes some buttons previously available on Update General
Nebraska - ADVISER - Update Transcripts and Post Graduate Activities - formerly Update Transcripts, includes some buttons previously available on Update General

Build 112117

Discipline - Reports - Discipline Summary - added student name to "Referrals By Student" report
File - Online Settings - renamed checkbox to Allow Parents/Contacts to view Parent/Contact Information
Grading - Report - Progress Report Publishing - New report so an administrator using the Office Application can see the last time a teacher published grades
Grading - Test Scores - Edit Student Test Scores - "NormalSortOrder" option removed; default is now by "TestName"
Grading - Test Scores - Import Test Scores - NWEA, MN DSR importer updates for fall 2017
Iowa - SRI - Import Enrollment History from Prior Year - allows import for students not checked for state reporting
Lunch - Reports - Balance Sheet - Options for All, Active Only, Inactive Only
Lunch - Reports - Benefit Issuance List - fixed issue for students with no state ID
Lunch - Reports - Lunch Status - fixed issue when running the report for the district level

Nebraska District Certified Build

Nebraska - ADVISER - Update A Student - new page for ADVISER data submission
Nebraska - ADVISER - Delete A Student - new page for ADVISER data submission
Nebraska - ADVISER - Update General - new page for ADVISER data submission
Nebraska - ADVISER - Update Discipline - new page for ADVISER data submission
Nebraska - ADVISER - Update Attendance - new page for ADVISER data submission
Nebraska - ADVISER - Update Student Grades and Section Associations - new page for ADVISER data submission
Nebraska - ADVISER - Update Transcripts - new page for ADVISER data submission
Nebraska - ADVISER - Import Special Education - new page for ADVISER data submission
Nebraska - ADVISER - Import Programs - new page for ADVISER data submission
Nebraska - File - Administrator Options - Ed-Fi Settings – option to enable SSEPA
Nebraska - NSSRS - Student Summary Attendance Template - fixed a year-specific issue with term drop down list

Schedules - Course - Course Data List - updated with more fields

Build 103017

Grading - Test Scores - Export WIDA Student Upload File - new option to generate student file for uploading testing roster for such tests as ACCESS for ELLs, WIDA Screener, others.

Grading - Test Scores - Import Test Scores - ACT updates for fall 2017

Lunch - Web POS - Enhancements since initial release:
1. you can now click on Ala Carte items to add them to the purchase
2. a la carte items will be added immediately to the purchase if the full 2-digit code is entered (e.g. 01 instead of 1)
3. remove inactive students from the list
4. allow negative number for low balance limit

Wisconsin - Discipline - Data - Edit Student Data - fixed issue with default Incident Location

Wisconsin - Edit - Edit School Data - displays only data elements appropriate to user's profile

Wisconsin - Ed-Fi Settings - displays only data elements appropriate to user's profile

Wisconsin - Health - Immunization Compliance Report - updated DTP compliance checking

Wisconsin - Program History - Import Program History from Prior Year - Initial version of this option which generates Program History records for the 17-18 school year based on the student's programs fact and demographic data from the 16-17 school year.

Wisconsin - Special Education History - Update Special Education History from WISEdata API - new page for WISEdata that allows JMC Special Education History to be updated via the WISEdata API from data submitted by other special education reporting software. This is important for WISEdata reporting of discipline based on student disability (special education) status.

Wisconsin - WISEdata - Update Student/Grade/Discipline - updates for various 17-18 changes not included in earlier builds

Wisconsin - WISEid - Get All Staff WISEids - new page for seeing all staff WISEids as reported via the WISEid application

Build 083017

Attendance - Contacts - Edit Contacts - New contacts are checked for duplication with existing contacts.

Attendance - Contacts - Merge Contact Submissions - further validation of email addresses.

Attendance - Student - Lists - Removed usage of Lunch privileges. Student Sensitive data now governed only by Sensitive privileges.

Attendance - Student - Lists - Updates to Special Education, Bus, General & Discipline categories (varies by state).

Edit - Mass Change Fields - Increased maximum length of advisor from 2 to 3 characters.

File - Online Settings - New options for Parent Lunch and Fees are now available for Online Parent and Online Student. These options may be enabled/disabled on this page.

Grading - Reports - Grade Report - Progress Reports - Shows exam grade term codes.

Grading - Reports - View Progress Reports - Shows exam grade term codes.

Grading - Test Scores - Import Test Scores - updated importer for FAST aReader.

Grading - Test Scores - Import Test Scores - updated importer for MN DSR/SSR files.

Grading - Test Scores - Import Test Scores - updated importer for NWEA MAP - Growth scores.

Grading - Transcripts - Print Transcripts - Uses student's legal name if provided.

Grading - Transcripts - Print Transcripts - Added Commendations for Activities.

Health - Immunizations - Immunization Compliance Report - Added new Iowa requirements for meningococcal immunizations.

Health - Immunizations – new Meningococcal B - Added new Serogroup B Meningococcal (MenB) immunization.

Health - Medication Log - Edit Student Medications - Fixed issue with print button on Appointments tab.

Home Page - Revision on Pending Submissions counts.

Lunch - Web POS - Initial Release

Lunch - Data - Edit Student Lunch Data - New Button - Relaxed validations that were resetting the transaction type.

Lunch - Free/Reduced - Direct Certification Notification Letter - Updated the required statements on this letter as required.

Lunch - Report - Lunch Status - Updated to handle new lunch transaction types of "Direct Certification – Approved for Reduced" and "Application was Included in Verification". Also, additional breakdowns for transaction types were added to each section of the report.

Lunch - Report - Benefit Issuance List - *New report added at the request of auditors*. This report includes a list of all free and reduced students in the district sorted alpha by name. The detail includes: student name, grade, building of attendance, method of certification, benefit level (free or reduced), *indication if applicant used in verification*, date of birth, state ID. The report is exportable as a CSV file.

Message Center - Send Messages - Allow selection of multiple activities.

Minnesota - Attendance - Add Student - Added a Quick Link to go to the MARSS tab on Edit – Student Data.

Minnesota - Attendance - Drop Student - Added a Quick Link to go to the MARSS tab on Edit – Student Data.

Minnesota - MARSS - Edit School Data - new fields used for School Readiness (PK/KG column, PK Groups RA-RJ)

Minnesota - MARSS - Capture MARSS (Fall, End of Year) Files - School Readiness (PK Groups RA-RJ)

Minnesota - MARSS/MCCC - Edit Student Data - A new data element on the Student Data page (General tab) for MCCC. This checkbox is to indicate that the student is included in MCC reporting for the school year. Formerly MCCC inclusion was done with the MARSS checkbox but this caused inclusion issues between the MARSS and MCCC data submissions.

Minnesota - MCCC Student File - Inclusion now based on new MCCC checkbox on Student Data page (General tab).

Nebraska - ADVISER - Import Program History - new option for initial setup of Program History from Programs Fact data.

Nebraska - ADVISER - Import Special Education History - new option for initial setup of Special Education History from special education data elements.

Nebraska - ADVISER - Update General - new option to aid with ADVISER data submissions.

Nebraska - ADVISER - Update Attendance - new option to aid with ADVISER data submissions.

Nebraska - ADVISER - Update Discipline - new option to aid with ADVISER data submissions.

Nebraska - ADVISER - Update Student Grades and Section Associations - new option to aid with ADVISER data submissions.

Nebraska - ADVISER - Update Transcripts - new option to aid with ADVISER data submissions.

Nebraska - Student Data - Updates in preparation for ADVISER (Ed-Fi) data submission.

Schedules - Student - Schedule Tables - Report update.

Tuition/Fees - Data - Edit Family/ORG Fee Data - Loads only Fee and ORG Fee contacts.

Tuition/Fees - Reports - Fee List - Only shows Fee contacts.

Tuition/Fees - Reports - Fee Payments - Only shows Fee contacts.

Wisconsin - Ed-Fi Settings - Added options for SSEPA and SPA inclusion.

Wisconsin - Scheduling - Edit Course Data - Teacher tab - changed from Teacher Mode to Primary Teacher Classroom Position.

Wisconsin - Scheduling - Edit Course Data - State Specific Course tab - changed from older state course codes to newer Ed-Fi state course codes. This was done automatically for the user. When selecting a state course code, the newer style webcombo box will allow you to search for a code by typing in all or part of the course name (Ed-FI) or state course code (Ed-Fi or CWCS). Clicking on the current code will display information about the code: Ed-Fi code, Ed-Fi course name, corresponding CWCS course code, rigor, subject area.

Wisconsin - Scheduling - Edit Course Data - State Specific Sections tab - Bilingual ESL column reset to "Not Specified" due to transition to new Ed-Fi codes

Wisconsin - Special Education - Import Special Education History from Prior Year - Initial version of this option which generates Special Education History records for the 17-18 school year based on the student's special education history at the end of the 16-17 school year.

Wisconsin - Student Data - Program History - new 504 program in Program History. 504 is no longer listed in the Special Education tab of the Student Data page.

Wisconsin - WISEdata - Start Year - New page to track the user through the tasks required for preparing to report WISEdata in the 17-18 school year. As each option is completed in this checklist the user can check off that the item has been completed right on the page.

Wisconsin - WISEdata - Update Discipline - This new page includes options for submitting WISEdata Discipline records.

Wisconsin - WISEdata - Update Grade/Student - Updates for Special Education History field "Special Education End Date" which is now to be populated for every change in service as opposed to only when the student leaves special education altogether. Also, SPA and SSEPA are only submitted if the Ed-Fi settings permit.

Wisconsin - WISEdata - Update Roster - This new page includes options for submitting WISEdata Roster records.

Wisconsin - WISEdata - Update Tables - This new page includes options for updating tables dynamically. Tables include Schools, Local Education Agencies (LEAs), Languages, and Courses (state course codes).

Wisconsin - Year End - Mass Exit – Fixed issue with previous build.

Build 071417

Attendance - Contacts - Contact Forms - Instructions are now editable for each individual form.

Communications - *NEW MODULE* - Allows you to keep communications info for a student. This module is very similar to the JMC Discipline module but is intended to be more general in nature. Teachers can also send communications to the office regarding student behaviors, health concerns, and so forth.

Discipline - Data - Edit Student Data - When a new discipline record is added there is an option to email a copy of the record.

Discipline - Data - Merge Discipline Referrals - When a new discipline record is merged there is an option to email a copy of the record.

Edit - Merge Student Submissions - new Reject All option

Edit - Student Data - Locker number field was lengthened to 7 characters

Edit - Student Data - Right-clicking the icon on the right of the student's Cell Phone Number allows you to select messaging options for the student

Grade Zero Groups in Grade Drop Down List added for the following pages**:**

- Discipline Report for a Student
- Grade Distribution
- Grade Point Averages
- Grades – Progress Report
- Grade Report
- Midterm Grade Report
- Midterm Report Cards
- Report Cards
- Schedules
- Reference Cards
- Standards and Benchmarks Forms
- Summary Labels
- Print Health records
- Reference Cards
- Load Print
- Schedule Table
- Verify Registration
- Fees Charged

Integrations - OneRoster - New integration functionality for OneRoster has been added.

Lunch - Data - Edit Family Lunch Data - Any changes to a dependent student account will now be displayed on this page.

Lunch - Data - Edit Family/Student Lunch Data - When suing the New button to add transaction records, there are two new transaction types to choose from: Direct Certification - Approved for Reduced and Application was Included in Verification.

Lunch - Direct Certification - Direct Certification for Meal Benefits has now been expanded to include Direct Certification for Reduced Price Meals. Due to the nature of these changes in Direct Certification, every page and report in the JMC Lunch module is impacted. We are working steadily on all of the pages and reports and plan to put out this software update in early August. This update will also include any necessary wording changes to Direct Certification notification letters. The Direct Certification Import option will also be updated to correctly set the lunch status for affected students.

Nebraska - ADVISER - Initial version with vender certified options.

Nebraska - Discipline - Data - Edit Student Data - New Ed-Fi version, includes all fields needed for reporting ADVISER Discipline records.

Period Attendance - Reports - For a Student - Added ability to Find student by typing in first or last name.

Resources - *NEW MODULE* - The Resources "Module" is simply links to various office resources from JMC's website. Each web link in this "module" takes you to resources specific to an area of interest for the JMC Office Application, such as Administrator, Lunch Professional, Health Professional, etc.

Wisconsin - Discipline - WISEdata Discipline certified version.

Wisconsin - Discipline - Data - Edit Student Data - Problem Behavior and Actions are selectable by typing all or part of the name of the option you wish to select.

Wisconsin - Roster - WISEdata Roster certified version.

Wisconsin - Student Data - Special Education History - new field Last Evaluation Date was added as per Ed-Fi/DPI requirements.

Build 061317

Attendance - Contacts - Contact Forms - Allows upload of pdf forms needing to be digitally signed by parents.

Attendance - Contacts - Bulk Load Contacts Forms - Assign specific forms to specific groups of parents.

Attendance - Contacts - Contacts Forms Signatures - Report of which contacts have/have not digitally signed required forms.

Attendance - Student - Edit Student Sensitive Data - Legal Name fields for first, middle, last, and suffix have been added to this page.

Attendance - Student - Lists - Category formerly known as Lunch/Economic has been renamed as Sensitive and Legal Name fields have been added to that category.   Also adding Office, Teacher, Confidential, and Special Ed Comments fields to Comments category. Also other state and year specific updates for various states.

Discipline - Data - Edit Student Data - Updated Problem Behavior and Actions so can type in problem behavior or action in order to find it in the drop down list. Also added ability to Find student by typing in first or last name.

Discipline - Reports - Student - Grade menu has grade zero subgroups.

Discipline - Reports - Discipline Query - Many new sort options.

Discipline - Reports - Discipline Summary - Includes bar graphs, also new breakdowns.

Edit - Student Data - New cell phone number field for students.

File - Online Settings - Many new options *(Bus Information, Credit Check Detail, Test Scores, Transcripts, Standards and Benchmark Report Cards)* are now available for Online Parent and Online Student. These options may be enabled/disabled on this page.

Grading - Reports - Report Cards and Midterm Report Cards - Added ability to Find student by typing in first or last name. Also, grade menu has grade zero subgroups.

Grading - Reports - Summary Labels - Grade menu has grade zero subgroups.

Grading - Test Scores - Import Test Scores - updated importer for NWEA *(NOT FAST UPDATE)*

Grading - Transcripts - Print Transcripts - Added ability to Find student by typing in first or last name. Also, new option for some states to include the state ID on the printed transcript.

Health - Reports – Print Health Records - Grade menu has grade zero subgroups.

Health - Medication Log - Edit Student Medications - Keep user from deleting or changing the medication for a medication record if there are dependent transactions and/or kept appointments.

Health - Medication Log - Medication Appointments for a Day - added event logging, also added Quick Links to other pertinent Medication Log pages.

Health - Medication Log – Medications Appointments and Transactions – New report to list medication appointments and transactions for a day.

Iowa - Certified Build for SRI 2017-2018.

Iowa - Attendance - Add Student - added School of Origin to enrollment history items

Iowa - Attendance - Re-enter Student - added School of Origin to enrollment history items

Iowa - Health - Immunization Compliance - updated polio compliance (minor)

Iowa - Bar Codes - Create File for Iowa Testing Bar Code Input - updated for 2017-2018 year, includes Legal Names where available.

Iowa - SRI - Create File for Iowa Dept of Education - updated for 2017-2018 year.

Iowa - SRI – Import Enrollment History from Prior Year - updated for 2017-2018 year.

Iowa - State IDs - Export Student ID File for IDE - updated for 2017-2018 year, includes Legal Names where available.

Lunch - Data - Edit Family/Student Lunch Data – Sped up page loading.

Lunch - Data - Edit Student Lunch Data - New Button - When click New button user is now offered option to change the student's lunch status at the same time.

Minnesota - MARSS - Calculate Attendance - Percent Enrolled 999 students can now have their attendance and membership hours automatically calculated.

Minnesota - MARSS - Capture MARSS (Fall, End of Year) Files - Percent Enrolled 999 students can now have their attendance and membership hours automatically calculated.

Minnesota - MARSS - Edit Student Data - Percent Enrolled 999 students can now have their attendance and membership hours automatically calculated.

Minnesota - MARSS - Print MARSS Data - Percent Enrolled 999 students can now have their attendance and membership hours automatically calculated.

Minnesota - MARSS - Update Status from Last EOY - Percent Enrolled 999 students can now have their attendance and membership hours automatically calculated.

Minnesota - MCCC Student File - New validation - checking for missing birth dates.

Nebraska - Discipline - Data - Edit Student Data – New Ed-Fi version, includes all fields needed for reporting ADVISER Discipline for 2017-2018.

Nebraska - NSSRS Template updated - School Enrollment template no longer tries to put 203 drop codes in automatically for graduating seniors. The 203 drop code was retired and has been replaced by 210,211,212 (Drop Student).

Nebraska - NSSRS - Student Grades Template - custom translation for one school – translates between school's chosen 100 point grading system and letter grade system required for NSSRS reporting of student grades.

Nebraska - NSSRS Programs Fact - Career Codes Updated - career codes have been updated for 2016-2017.

Schedules - Student - Print Schedules - Added ability to Find student by typing in first or last name. Also, grade menu has grade zero subgroups.

Wisconsin - Attendance - Reports - Drop/Add Report - Uses Wisconsin's text-based drop and add codes rather than the generic JMC numeric drop and add codes.

Wisconsin - Attendance - Student – Special Education Status - New report to show list of all special education students as of a specific date based on special education history records.

Wisconsin - Attendance - Reports - Report By Student - Added Private Choice field to text export.

Wisconsin - Discipline - Data - Edit Student Data – New Ed-Fi version, includes all fields needed for reporting WISEdata Discipline for 2016-2017.

Wisconsin - Special Education - Special Education History Discrepancies - New report that looks for discrepancies in the Special Education History data.

Wisconsin - Schedules - Course - Course Data List - Added new field Instruction Medium.

Wisconsin - Schedules - Course - Edit Course Data - Added new field Instruction Medium to state-specific course tab.

Wisconsin - WISEdata - Update Grade/Student - New validations: checking for valid day numbers defined and also that end of year day number has a valid date associated with it.

Build 032217

Attendance - Calendar - Term Dates – page formatting enhanced, includes the day number next to the date if is for a day that was defined in Attendance - Day - Day Names

Attendance - Contacts - Merge Contact Submissions - use Kellerman email validation for incoming email addresses

Attendance - Student - Edit Student Sensitive Data – "delete" column is now a check box

Attendance - Student - Lists - maximize space on labels

Discipline - Reports - Discipline Summary - added graphing options

Grading - Test Scores - Mass Create Test Scores - New Option - allows you to mass create test score records for all students in a course section at once

Grading - Test Scores - Test Scores Selections - Perkins TSAs update: new categories for AAFCS, ACF, ASE, Apple, CASE, College Board, Certiport, Cisco, Career Safe, CompTIA, EETC, FISDAP, ICAR, MFSCB, NHA, NIMS, NRA, NRF, OK Career Tech, Project Lead the Way, Precision Exams, Red Cross, Test Out Corporation; new definitions for SkillsUSA, NREMT, NOCTI, MDH, CAERT

Health - Medical Emergency Plan - fixed issue where medical emergency plans with no content were listed in this report

Health - Medication Log - Medication Appointments for a Day - added concurrency checking to alleviate possibility of duplicate records coming from multiple sources

Health - Reports - Print Health Records - fixed pagination issue

Iowa - SRI - Print Course SCED Codes - added columns for Common Course Number & Delivery Method; added export option (CSV)

Message Center - Send Messages - increase page timeout to 10 minutes

Minnesota - Edit Course Data - updates in State Specific Course tab for Perkins TSA – now over 300 options

Minnesota - Health - Immunizations - Import MIIC Immunizations - will import immunizations to any copy of cloned students (exact same first and last name, birth date); more sorting of student lists in summary

Minnesota - MCCC - MCCC Course Index File - fixed issue with special characters in course name field

Minnesota - Perkins - Carl Perkins Program/Course Codes – added a sort option for this page (course name or number)

Nebraska - Attendance - Student - Lists - year-specific updates for Programs Fact, Program History, and Special Ed History

Nebraska - Ed-Fi - updated SDK to V2.0 Final

Nebraska - Student Data - General tab - new data elements for Postgraduate Activity

Online Settings - new option for allowing discipline records to be viewed in Online Parent

Standards and Benchmarks - Reports - Print Standards and Benchmarks Report Cards – added validation on End Days

Tuition/Fees - Reports - Fee Invoices - Grade level drop down list now includes grade 0 subgroups

Build 022117

Attendance - Contacts - Edit Contacts - Can now find by contact name, email address, or phone

Attendance - Contacts - Print Contact Directory - Include Adults. Export all contact emails

Discipline - comprehensive Ed-Fi update for Nebraska ADVISER compatibility. Every page and report in the JMC Discipline module was altered to use PBIS and/or Ed-Fi code sets and data elements where appropriate

Grading - Test Scores - Import Test Scores - new importer for PreACT

Grading - Test Scores - Import Test Scores - updated importer for FAST

Grading - Test Scores - Test Scores Selections - updated definitions for FAST, new definitions for PreACT

Grading - Transcripts - Print Transcripts - Adjust course sort order

Health - Health Note - Edit Student Health Note - handles special characters better

Lunch - Data Setup - Import Account Balances from Prior Year - handles students with and without lunch contacts

Minnesota - Edit Course Data - Updates in State Specific Course tab for Early Education Curriculum and Early Education Assessment Tools. The code tables for these data elements were updated appropriately for each year.

Minnesota - MCCC Student File - XML updated for college info in record type DirectPayStudentRecord

Nebraska - NSSRS Templates updated - Student and Student Snapshot now use the new Immigrant Indicator field

Nebraska - NSSRS - Student Grades Template - custom translation for one school – translates between school's chosen 100 point grading system and letter grade system required for NSSRS reporting of student grades.

Nebraska - Student Data - Entry tab - update on immigrant data element; now this is a drop down list called Immigrant Indicator

Nebraska - Student Data - General tab - 2 new data elements for recording postgraduate activity.

Nebraska - Attendance - Student - Lists - New Fields in General Category - 2 new data elements for recording postgraduate activity

Nebraska - Attendance - Student - Lists - Updated Discipline Category - Discipline category has been updated to reflect changes to Discipline module for this build.

Tuition/Fees - Reports - Print Invoices - fix

Wisconsin - Attendance - Student - Lists - Updated Special Education Category - Special Education category has been updated to reflect changes to Special Ed tab on the Edit - Student Data page from recent months.

Wisconsin - Student Data - Special Education tab - reintroduced fields outside of Special Ed History – Original Special Ed Entry Date, Original Special Ed Exit Date

Wisconsin - WISEdata - Update Grade/Student - revised reporting of 3rd Friday in September count date status for Parentally Placed Private students

Wisconsin - WISEdata - Update Grade/Student - revised reporting of October 1 Child Count status for special case where Oct 1 falls on weekend and the student was not a member on the Friday before (not counted)

Build 121416

Attendance - Student - Lists - updates to Resident field (state-specific)

Discipline - Data - Edit Student Data - Added new Discipline Settings Quick Link with new option for including student discipline records from other buildings in the student's prior years list. Also, moved the View option (Classic/Full) from the top of the Edit Student Discipline page to the Discipline Settings page. Both items on the Discipline Settings page are stored as a user preference.

Discipline - Data - Merge Discipline Referrals - Client-specific coding to hide Reject button

Discipline - Reports - Discipline Query - Added 3 new drop down lists for sorting options; saving prefs for many settings for this query; new Export option; automatically displays query on page load; added fields in Detail for Location & Severity; added field Incident Location (Location); renamed older Location (text) field as Location Detail; renamed Referred By field as Reporter

Discipline - Reports - Student - Added field Incident Location (Location); renamed older Location (text) field as Location Detail; renamed Violations as Problem Behaviors; renamed Consequences as Actions

Edit - Merge Student Submissions - fix to prevent phones from becoming unchecked for SMS and other settings

Edit - Student Data - New Student Button**:** offers to add in next year's data and specify which building for next year

File - Administrator Options - If Message Center enabled, disable SMTP changes

Emailing - Limit attachments to a total of 20 MB

Grading - Entry - TGE/Gradebook Entry - only pull in grades for the term window selected

Grading - Reports - Print Progress Reports - pagination fix

Grading - Reports - Print Report Card Forms - improved matching of forms to parents/students

Grading - Test Scores - Import Test Scores - STAR importer tweaks: import summary expanded for when no records are imported; enable import on student ID even though we would only expect state IDs in a STAR file

Health/Attendance - Student - Lists - Medical Emergency Plan category added

Health - Health History - Edit Student Health History - 4 new categories: Visual – External Inspection, Visual – Unilateral Cover Test, Visual – Plus Lenses, and Medical Release

Health - Health History - Health History Screening - added many new health history categories to this page

Health - Health History - Health Accessibility - all new health history categories added to this page

Health - Medical Emergency Plan - new report - Medical Emergency Plans report lists all students with a medical emergency plan

Health - Medication Log - Medication Appointments for a Day - fixed issue where a student from a different building with a user-defined med would show up on this page

Health - Medication Log - Medication Appointments for a Day - better synchronization of updates between daily appointment and inventory records (no screen refresh in between) (possible bug fix)

Integrations - Schoology - user interface updates

Iowa - New Student Wizard - minor update - field names & order now match with Add Student page

Lunch - Data - Edit Family Lunch Data - fixed issue where some transactions could be added but would not be displayed

Lunch - Reports - Last Payment Details - contact balance computations are now consistent with Lunch Summary report

Minnesota - MARSS - Update Status from Last EOY – now imports data from latest record chronologically, not sequentially

Minnesota - New Student Wizard - Add Student - fixed rare bug that would not allow a 0 to be entered for the Transportation Category

Nebraska - Attendance - Staff - Teachers - new fields Begin Date, End Date, and Staff Classification added for use in ADVISER update for Staff Association interchange

Nebraska - Scheduling - Course – Edit Course Data - new field Classroom Position added for use in ADVISER update for Staff Association interchange

Period Attendance - Reports – Form Letters – client-specific handling of period 0

Tuition/Fees - Data - Edit Family/Org Fee Data and Edit Student Fee Data - Show past years' transactions

Roll up to Next Year - Preserve Parent Lunch Balance Notice setting for next year

Wisconsin - Student Data - new Enrollment History available in State Report tab that allows for an attendance data override for WISEdata reporting of part-time students

Wisconsin - Student Data - Special Education History - changed sort order so most recently added record is at top of list. Also revised format of Special Ed History "rows" so that the fields are in 3 columns in wider tab so can view 2 complete records in the tab

Wisconsin - WISEdata - Update Grade - enhanced handling of students with no WISEids

Wisconsin - WISEdata - Update Grade - (Choice schools only) allow pre-SpecialEd History data elements to be sent if from before 16-17 school year

Wisconsin - WISEdata - Update Student - enhanced handling of students with no WISEids

Wisconsin - WISEdata - Update Student - (Choice schools only) allow pre-SpecialEd History data elements to be sent if from before 16-17 school year

Wisconsin - WISEdata - Delete Student - enhanced handling of students with no WISEids

Build 102816

Health - Medication Log - Define Medications - *USER-DEFINED MEDICATIONS ARE HERE!* Users may now define their own medications using Health - Medication Log - Define Medications. Once defined, these medications may be selected from drop down lists in the med log just like the predefined (FDA approved) meds

Health - Medication Log - Edit Student Medications - *USER-DEFINED MEDICATIONS ARE HERE!* Users may now define their own medications using Health - Medication Log - Define Medications. Once defined, these medications may be selected from drop down lists in the med log just like the predefined (FDA approved) meds

Health - Medication Log - Edit Student Medications - fix for when date range of appointments is edited; in some cases could cause a duplicate daily appointment record to be created

Health - Medication Log - Edit Student Medications – fixed some sort order issues with the Inventory tab

Health - Medication Log - Medication Appointments for a Day - *USER-DEFINED MEDICATIONS ARE HERE!* Users may now define their own medications using Health – Medication Log – Define Medications. Once defined, these medications may be selected from drop down lists in the med log just like the predefined (FDA approved) meds

Health - Medication Log - Medication Appointments for a Day - fixed rare issue where a newly created record could be marked as deleted

Health - Medication Log - Medication Appointments for a Day - fixed issue with info icon for when student had no contact information

Health - Medication Log – Medications Inventory – *NEW MED LOG REPORT* for listing current inventory; also includes option to display only student/medications that are at or below the specified threshold (low inventory)

Integrations – Schoology Automated Grade Passback - Categories, Assignments, and Scores can now be automatically imported nightly from Schoology into JMC Online Teacher (grade book)
Iowa - SRI - Create File for Dept of Ed - Removed some obsolete KG Literacy error checking
Iowa - SRI - Create File for Dept of Ed - fixed rare bug related to students with no enrollment history record
Iowa - TIER – DisciplineIncident data is now sent by SIF agent
Lunch - Data - Edit Family Lunch Data - identify deposits as family or student account
Lunch - Data - Edit Student Lunch Data - Print Notice Button - will now print the Primary contact address for students that don't have a Lunch contact, but do have a Primary contact
Lunch - Reports - Low Balance Notice - warning if not all grades represented in Pricing Groups
Message Center - Now has a Managed Scheduled Messages page where you can edit dates and times of scheduled messages, or delete scheduled messages
Minnesota - STAR - Edit Staff Assignments - updated assignment codes (now year-specific)
Nebraska - NSSRS Templates updated for 2016-2017 - switch from School of Attendance to School of Residence
Nebraska – Edit - Student Data - Updated NSSRS Data Element - School of Attendance data element has been changed to School of Residence
Nebraska – Attendance - Student - Lists - Updated NSSRS Data Element - School of Attendance data element has been changed to School of Residence
Schedules – Student - Edit Schedules - preserve scroll position when deleting courses
Wisconsin - WISEdata - Update Grade is new name for **WISEdata - Initialization**
Wisconsin - WISEdata - Update Grade now sends Parent Placed Private always in SSEPA
Wisconsin - WISEdata - Update Student is new name for **WISEdata - Synchronization**
Wisconsin - WISEdata - Update Student now sends Parent Placed Private always in SSEPA
Wisconsin - WISEdata - Delete Student - new option to remove the resources for a student, regardless of which flags are checked for the student
Wisconsin - WISEid - Export Person Upload File - handle multiple buildings in K-12 database

Build 092216

Minnesota - MARSS - Edit School Data - new fields used for Voluntary Preschool (PK/KG column, PK Groups PA-PJ)
Minnesota - MARSS - Capture MARSS (Fall, End of Year) Files - Voluntary Preschool (PK Groups PA-PJ)
Minnesota - Mass Change Fields - added MARSS Percent Enrolled and State Aid Category
Wisconsin - WISEdata - Initialization - includes option to specify a grade level
Wisconsin - WISEdata - Year End – includes option to specify a grade level
Wisconsin - WISEid - Export Person Upload File – handle special characters (slash, ampersand, etc.)
WISEdata - Student Program Associations - ed org is now sent as LEA ID, not School ID
Period Attendance - Data - Edit Reasons and Cutoffs - allows up to 64 reason
Scheduling - Course - Edit Course Data - When typing in find box, if no match found for course number or name, will display matches on SCED Code. If no matches on SCED Code, will show available (new) course numbers
Teacher drop downs will sort by Sort Order then Name (instead of Number).

Build 090316
----

cmERDC export - bug fix
Edit Student Data - remember grade choice selection
Grading - Entry - Teacher to Office - asks Final grades or Midterm grades.
Health - Medical Emergency Plan - Edit Student Medical Emergency Plan - button to import from prior year
Lunch - Reports - Summary - bug fix
Lunch - Reports - Low Balance Notice - bug fix
Minnesota - Add Student - includes MARSS status line data elements
Minnesota - Early Education - Edit Student Early Education - fixed issue with Count of Classes drop down list.
Minnesota - Early Education - Early Education Student File - fixed issue with Count of Classes

Minnesota - MARSS - Capture Files - bug fix for Check Errors button
Schedules - Course - Class Lists - no teacher fix
Schedules - Student - Print Schedules - added Address Line 2
Wisconsin - WSLS - EUT file - new validations
Wisconsin - Student Data - new public data elements, new Special Ed History, new Program History
Wisconsin - WISEdata - Ed-Fi Profile and other settings
Wisconsin - WISEdata - EdFi SDK updated for public/choice
Wisconsin - WISEdata - Initialization – updated for public schools, includes updates for Private Choice as well
Wisconsin - WISEdata - Synchronization – allows to send all resources for an individual student

Build 072516

All Pages - Switch School Year – new drop down list, between Switch Building drop down list and Quick Links
Attendance - Staff - Teacher - District-Wide Teacher list that can be edited per building
Attendance - Contacts - Edit Contacts - Delete a Contact - Cannot delete a contact if the contact has a balance in Lunch or Fees in any year for auditing purposes.
Discipline - Data - Edit Student Data - Added Instructional Format and Discipline Incident Location
Edit - Student Data - All Active and All Inactive selections with All Active being the default.
Email - You can email students from these screens
- Print Report Cards Forms
- Print Report Cards
- Print Midterm Report Cards
- Print Standards and Benchmark Report Cards
- Print Standards and Benchmark Transcripts
- Print Student Info Forms
- Print Schedules
Grading - Test Scores - Import Test Scores - ACT importer - fix duplicate checking, add matching option for state ID
Health - Medication Log - Edit Medications - validate appointment dates – fix so date range remains within reasonable range (within calendar years for school year)
Health - Medication Log - Medication Appointments for a Day – follow-up edits on this page will correctly update inventory
Iowa - Direct Certification - Potential Students – updated this option for file format changes
Iowa - Edit School Data - removed KG Literacy Assessment and ETranscript information (no longer needed).
Iowa - ELL Extract – new file extract for new ELL data collection
Iowa - TIER - Database Update to add Iowa Staff Type role "2120 Behavior Coach".
Iowa - TIER - StaffTypes (TIER Roles) to be set per building
Lunch - No more transfers to Family Accounts. You will see transactions in the Family Account and the Balance will update itself correctly without having to see transfers, so the confusion of transfers is gone.
Lunch - Direct Cert and Eligibility Letters have been updated for each state, and the Eligibility Notification Letter has the address towards the top adjusted so you can use a windowed envelope.
Lunch - Low Balance Notices - If you have our Message Center module, you can now send a phone call for low balances as well as emails.
Minnesota - Attendance - Add/Drop/Re-Enter student now allows for MARSS records on these pages.
Minnesota - Print Transcripts - Career and College Readiness – new section on Transcript in labeled "Career and College Readiness"
Minnesota - Student Data - Career and College Readiness – new box in MARSS tab - when checked (local decision), it will show up on Transcript
Minnesota - Student Data - MARSS data element update - Homeless moved to the MARSS Status Line
Nebraska - Import Programs Fact – new End Date option
Nebraska - NSSRS Templates updated for 2016-2017 – Includes new School of Attendance data element, code tables changes, other tweaks
Nebraska - Student Data - New NSSRS Data Element – School of Attendance

Nebraska - Student Data - Updated NSSRS Data Elements – Resident District and Attending District are now string values which allows for inclusion of hyphen to separate the county and district numbers
Schedule - Student - Edit Schedules - All Active and All Inactive selections with All Active being the default.
Wisconsin - Mass Change Fields – added Completed School Term data element
Wisconsin - WISEdata - Completed School Term – now reports correctly if multiple spans of attendance
Wisconsin - WISEdata - Count Date Receiving Services – now reports correctly if multiple spans of attendance
Wisconsin - WSLS - Exit/Update (EUT) file export – new option for reporting exit dates for year end
Wisconsin - Year End - Mass Exit – new option for mass exiting of students at year end

Build 060616

Iowa - SRI Certification for 2016-2017
Iowa - Student Info Forms - When Resident District or Resident County are selected their values are pulled from Enrollment History
Iowa - Import Enrollment History from Prior Year - fixed issue related to Last Location Code numbers and new LEA/School IDs (specific to one school)
Iowa - IRIS Patient File - Ensure zip code no longer than 9 characters
Iowa - Direct Certification - ELookup - if no State ID, find by first/last names and birth date
Minnesota - Early Education Student File - fix for hours/days attended
Minnesota - Edit Student Early Education - Special Needs - deprecated
Minnesota - MCCC Course Index File - Early Education update
Minnesota - MCCC Staff File - Early Education update
Minnesota - Edit Course Data - Early Education update (many new fields)
Minnesota - Edit Student Data - blank out MARSS data for new student
Nebraska - Import Programs Fact - options to specify which record type(s) will import
Wisconsin - WISEdata - Initial version
Wisconsin - WISEdata - Count Date Receiving Services – various updates
Wisconsin - WISEid - Import Person Upload File - better name matching/reporting
Wisconsin - WISEid - add birth county on Edit – Student Data in the Entry tab
NEW - Discipline Referrals from Teacher
Edit Student Discipline - Ensure Removal Length is numeric
Student Photos - Ability to change individual student photo
Summary Labels - Handle long course names
Student Lists - Display HTML student comments correctly
Edit Student Data - Siblings in Quicklinks. Text message agreement not so prominent
Edit Student Data - Handle issue with unexpected characters in custom field values
Edit Student Data - Teacher Comments, Special Ed Comments are now WYSIWYG Editors
Edit Student Data - Minor Chrome tweak for comments
Delete A Student - Exempts deleted lunch transactions
Delete A Contact - Only allow if no student associations
Edit Contacts - Text message agreement not so prominent
Contact field lengths fixed for Contact Title, First Name, Last Name, and City
Emailing - Retry email if response is "Sender already specified"
Send Emails - Confirm Reset Form to avoid accidental resets
Email Validation - Run once on the 18th of each month
Online Settings - Checkbox "Allow Parent and Student access to schedule information"
Parent Access Log - Added Print and Export buttons
Utility to shrink database
Grading - Report Cards - Don't create email message if no valid email addresses
Grading - Import Test Scores - NWEA - handle quote-wrapped data better; new NWEA test names
Grading - Import Test Scores - ACT - match on Birth date
Schedules - Class Lists - Student Photos option

Schedules - Print Schedule - study hall fix
Fees - Initialize Fee Contacts - Show summary
Lunch - Initialize Lunch Contacts - Show summary
Lunch - Balance Sheet - Added option for Nonzero Accounts in Grade 12
Lunch - Non-discrimination statements on Eligibility Notification, Direct Certification Notification, and Low Balance Notices are 11pt as required by the Federal government
Health - Medication Appointments For A Day - message if no day names defined
Health - Medication Appointments For a Day - Better handling of edits after initial action
Health - Edit Student Medications - Use new view options from Health Settings Quicklink to display all or current only version of records; deleted inventory records are now grayed out
Health - Edit Student Medications - dosage - fixed issue of signage when editing
Health - Medications table - Speed up access via indexing
Health - Health Settings Quicklink - new Quicklink for health pages that contains settings for time formatting and other view options
Health - Edit Student Visit Log - Student Photos
Health - Edit Student Visit Log - allows adults
Health - Visit Log Query - Drop down list for time formatting is moved to Health Settings Quicklink
Immunization Labels - User can select starting label and top margin
Message Center - Confirm Reset Form to avoid accidental resets
Message Center - Chrome browser cursor workaround
Period Attendance - Report For A Day - added the Student ID column back in

Build 031716

Edit Student Data - Comments and Confidential tabs will be colored red if data exists for that student
Wisconsin - Edit Student Data - New data elements Private School Choice Participant (General tab), State Assessment Type - Alternative (State Rpt tab) ; birth date validated when edited to eliminate birth dates beyond the current date
Wisconsin - Edit School Data - New data elements October 1 Child Count Date, WISEdata inclusion
Wisconsin - Administrator Options - Ed-Fi Settings
Wisconsin - Edit Student Sensitive Data - New data element Economically Disadvantaged
Wisconsin - Edit Student Lunch Data - New data element Economically Disadvantaged
Wisconsin - Student Lists - WISEdata updates - new data elements Economically Disadvantaged, Private School Choice Participant, and State Assessment Type - Alternative
Minnesota - MCCC – Course Index File is now at schema V4
Minnesota - MCCC - Mass Assign MCCC Course Data - changed maximum size of input value from 2 to 3 characters/numbers
Iowa - Create Testing Bar Code File - an issue was fixed where the IEP Level was sometimes reported incorrectly
Edit Student Custom Data - increased maximum number of characters of a custom field value to 200
Edit Student Discipline - Further refinements to Classic and Full view
Edit Student Medications - Allow decimal dosage, sorting options update (inventory tab), fixed rare issue with time formatting when saving, bug fix for inserting daily med appointment records (Weekly case), fixed doses remaining tallies on Print button (inventory tab), allow editing of records on Inventory tab
Edit Student Visit Log - sorting options update , fixed rare issue with time formatting when saving
Print Health Records - sorting options update (visit log)
Message Center - eliminate duplicate texts, eliminate repeating calls to same phone number, only attempt to redial to failed numbers once, correctly emails students. When emailing parents one of the dependent children will be listed in the log of emails sent.
Send Email Messages – When emailing parents one of the dependent children will be listed in the log of emails sent.
Email Address Validation – any email addresses used in JMC will be validated once per month and any invalid email addresses will be logged and then removed. This should alleviate issues with spam filters due to email delivery issues.

Edit Course Data - Section enrollment hyperlink and tooltip on Edit Course Data to show students in section - if click, goes to Class List of that section; increased maximum number of sections per course from 100 to 150; no JMCADMIN needed to change term

Lunch Reports - Federal Nondiscrimination Statement wording updated to latest from Federal Government

Midterm Report Cards - fixed issue with saving of form height

Bulk Load Student Standards and Benchmarks Forms - new option for specifying custom forms for groups of students simultaneously

Print Standards and Benchmarks Report Cards - added ReplyTo validation, emailing options, fixed zero attendance bug.

Period Attendance Report For A Day - re-ordered columns for readability

Build 010816

Move-Up Utility - the utility for moving up data from one year to the next has now been incorporated into the Next Gen application, thus allowing for speedier and simpler move-ups

Whole Grade Share Utility - the utility for managing whole grade shares between databases has now been incorporated into the Next Gen application

Edit Student Medications - Added sort order drop down (inventory tab)

Print Health Records - Added sort order drop down (visit log)

Edit Student Visit Log - Added sort order drop down

Build 112015

Edit Student Discipline – Option to choose Classic or Full view, stored as user preference

Edit Student Discipline – Auto-assign of Behavior Incident Number only if Action 1 is ISS, OSS, or expulsion

Fee Invoices- Print pagination fix

Edit Student Immunizations – Better sort order of immunizations in drop down list, new immunizations (immune globulin, typhoid, yellow fever, rabies)

Edit Student Medications – Comment now saves correctly when updating existing record

MN Immunizations - Import MIIC Immunizations – Better handling of multiple student matches, more efficient student matching (faster), improved import summary, new immunizations (immune globulin, typhoid, yellow fever, rabies)

Edit Student Test Scores – newer ACT subscore options will now display correctly in drop down list

Custom Honor Roll – client-specific updates

Build 103015

Edit Student Medical Emergency Plan – new option for storing/editing/sharing student's medical emergency plan. Includes built-in word processing functionality and can accept content from Word documents via copy/paste. The health professional can selectively choose to share with teachers in Online Teacher.

Edit Student Medications – expanded options for Inventory changes drop down list, lengthen RxNumber field, deleting parent med appointment record will delete dependent daily unkept appointment records, added editable time for inventory change records, added As Needed data element to Medications tab, added Print buttons to Medications and Appointments tabs

Medication Appointments for a Day – added one-click button for administration of med, added editable time of administration, added Print button, expanded Action options in drop down list, page formatting improvements, sort options

Print Health Records – new and better options for specifying which types of health data to include

MN Immunizations - Export MIIC List File – updated notes on page for how to create and upload

MN Immunizations - Export MIIC Client Query File – updated notes on page for how to create and upload

MN Immunizations - Import MIIC Immunizations – updated notes on page for how to acquire and import

Discipline Edit Student Records – automatic generation of Behavior Incident Number (editable)

Edit Online Settings – expand lunch counts to 12

Period Attendance Lunch Count/Attendance By Teacher - expand lunch counts to 12

Edit Contacts – Don't allow deleting contact if transactions in any year

Merge Contacts – Log when performed, don't allow merging of same contact

Print Transcripts – Options to Print Advisor and Eliminate Duplicates, fixed overwriting issue

Edit Period Attendance – page readability updates: when "Days" is chosen the label "Active:" now says "Absent/Tardy Students:"; when "Student", "Grade", or "Activity" is chosen it now says "Days:"

Import Test Scores – revisions for ACT, NWEA MAP, notes on page updated with more information about importable file types

IA – Create File for Iowa Department of Education – fix for rare issue with KG Lit Assessment

Edit Graduation Requirements – fix for rare issue

Class Lists – Remove blank page at end

Bulk Load Standards and Benchmarks Forms – handles apostrophes in form name

Edit Student Standards and Benchmark Forms – changing selected grade reloads forms

CRDC Data – eliminate duplicate lines

Canvas Import – ignore date for assignment matching

Build 083115

Medication Appointments for a Day - New
Edit Student Medications - New
Edit Custom Field Definitions - Do not need to enter a length unless the type is TEXT
Edit Student Discipline - For some clients, look at multiple buildings for prior records
Discipline Report For a Student – Fixed a potential issue with report timing out
Fees/Tuition - Added ability to split payments and apply to specific fees/charges
IA IRIS Immunization Patient File Export – Added Address, County, and Phone fields
IA Lunch Direct Certification - Now permits import of SRI, Potential, or Elookup files
IA,MN,WI Lunch Direct Certification – Better handling of subsequent imports
MN MARSS Early Education - Added IEP Status validation
MN Edit Student Data - Allow editing of IEP Status in 2014-2015
MN MARSS B File Capture – fixed issue with Special Pupil for Care and Treatment

Build 071515

All States – Updated for 2015.

Iowa - Certified Build for SRI 2015.

Iowa - Import Course Data enabled, use for SRI course data elements.
Iowa - Edit Student Data - SRI 2015 updates.
Iowa - Lunch Non-Discrimination wording update 2015.
Iowa - Student Lists - SRI 2015 updates.
Minnesota – MARSS – FSY2016 Updates – Ward of State becomes Special Pupil for Care and Treatment and is moved to MARSS status line.

Minnesota – SSID File now includes early education students who are not normally included in state reporting .

Minnesota – MCCC – Course Index File may now include course description if state course code is "unknown".

Minnesota – Health – MIIC updates.

Minnesota - Edit Student Data - Don't allow MARSS record editing for new student until after creation.

Minnesota – additional Early Education Student File validations.

Minnesota - Student Lists - MN MARSS & Early Education Student Updates.

Nebraska - code table updates for 2015 NSSRS reporting.

Multi-District Update – Initial Release.

Class Lists - Display "no data" if empty.
Discipline – Module Update: new fields, merge user-defined with predefined Problem Behaviors & Actions.
Edit Course Data – new tab/field for course description.
Edit Student Data - Allow 30 characters when editing phone description length.
Scheduler - Takes a connection string.
Student Lists - Discipline 2015 updates.
Student Lists - Add year-specific functionality that allows for changes across years.
Changed option in File menu from "Student Submission Settings" to "Student Registration Settings"

Build 051115

Minnesota - Combine Files - Allow up to 20 files to select.
Minnesota - MCCC - Mass Assign MCCC Course Data - More fields now available for assigning.
Email Progress Alerts - If set for once per day, no alerts go out before 5pm or after 9pm.
Health Visit Logs - Allow 12-hour, 24-hour, or military time.
Import Graduation Credit Requirements - Fixed issue preventing import.
Standards & Benchmarks – Forms linked to individual students. Teachers' data entry page mimics look of printed form.
Meals Served Report - Don't show Alternate Meal columns if not used.
Import Test Scores – AIMSWeb updates

Build 041715

GPAs - Client-specific coding to round GPAs to 2 decimals.
Home Page - Tooltip shows names of pending submissions.
Online Settings - Option to show Class Rank and/or Honor Roll result on Parent/Student Access Report Card.
Edit Schedules/Grades - Only show used term columns.
Import Test Scores – NWEA MAP updates

Build 041415

Minnesota - MCCC - Added Mass Assign functionality and various other updates.
Minnesota - Edit Student Early Education - Added "Import From Prior Year" button.
Nebraska - NSSRS Student Summary Attendance - Updated the 2014-2015 Reporting Date Spans.
Wisconsin - CWCS - WSL Student - Fixes for Grade Earned and Completion Status for CBC & other special circumstances.
Wisconsin - WISEdata - Edit Teachers - Added the WISEid field.
Fees - Bulk Load Charges - Ability to specify Kindergarten subgroup.
Visit Log Query - Display more of the Narrative.
Credit Check Detail - Added the option: If Required Credits Met, Move Additional Credits to Elective Credit.
Edit Student Data - Print button - Fixed the In State Reporting value.

Build 033015

Health History Flagged Report - Added column-specific descriptions.
Student Lists - Fixed rare line numbering issue.

Build 032715

Lunch A La Carte Detail Report fixes.

Build 032415

Print Transcripts – Issue fixed when test score records included very long comments.
Minnesota MCCC – allows for switchover to Schema Version 3 on April 17, 2015.

Build 031715

Reorganized Health module menus.
Edit Benchmark Instances - Fixed bug when deleting instances.

Build 031015

New Health History Screening - Bulk entry of Health History items.
Drop/Add Report - Student names are clickable to view attendance detail for student.
Edit Student Standards and Benchmarks Results - Calculated results round percentage to determine result.
Credit Check Detail - Required course credits above required amount are listed under the Electives section of report.
Print Transcripts - Wrap long activity names.
SIF Events Update for edge cases – REQUIRES SIF AGENT UPDATE AS WELL

Build 030415

Edit Student Data - Iowa - SIF Events when checking/unchecking State Reporting checkbox or changing from/to Adult grade level.
Edit Course Data - JMCADMIN has option to change course term type (even when sections exist).

Build 020615

Print Transcripts - new grade level cutoff for test scores.
Print Transcript - health note is separate option from immunizations.
Import Test Scores - new SAT and SAT Subject Tests importer option.
Health History – BMI will auto-calc when height entered in inches only, feet only, or feet/inches.
Civil Rights (CRDC) Report (Schedules-Course-Civil Rights (CRDC) Data - new option to split by sections, also specify report date for student inclusion (only active students on that day).
Lunch Reimbursables Report – now splits out cash accounts.
Lunch - alternate reimbursable meals (requires POS update).
Delete Contact - Don't allow contact to be deleted if Fees exist.
SIF Events - Ability to Start/Stop/Restart service.

Build 010715

Lunch Status Report – new option to export to CSV text file

Build 010615

Edit Custom Fields - Defaults new year to same settings as last year.
Edit Activities - Defaults new year to same settings as last year.
Edit Schedules and Grades - Logs when user deletes items from student schedule.
MARSS Early Education Student File - ProgramReferralsFrom/To fix. Registering Person 2 validation.
Merge Student Submissions - If processing while logged into the District, student custom fields are now accepted.
Edit Categories and Assignments - Fixed issue where a category could mistakenly get marked as Stand-Alone.

Build 122214

Cass Lake Enter New Student issue.
Fee Invoices fix if no Fee Contact assigned.
Edit Custom Fields - Defaults new year to same settings as last year.

Build 121814

Attendance Form Letter optimization for speed.
Allows for 15-16.

Build 121614

Low Balance Notices - Allow 2-up option.
Period Attendance Form Letters - Fixed a bug.
Message Center - Allow By Activity at District level.
Send Email Messages - Allow By Activity at District level.
Edit Student Data - If an Adult changes price groups, ask effective date.
Edit Course Data - Fixed bug affecting Read-Only users.
Print Student Schedules - Don't require home phone. Use top ranked phone.
Teacher - Enter Attendance - If By Advisor, default to Period 1, not Period 0.

Build 112114

Lunch – New report: Error Prone Three Percent
Lunch – Last Payment Detail – handle multiple deposits in date span, fix tallying issue
Attendance – New Attendance Form Letters
Activities – revised so Activities available at the district level.
CRDC Data – option to allow splits for either set of race/ethnicity codes
Print Transcripts – no longer tied to Include In Mailings flag for student contact
Student Lists – updated options for state-specific items, better handling of Yes/No selection criteria
Tuition/Fees - Deleted payments and charges were removed from the Fee Invoices
MN – MARSS Edit Student Data – all MARSS student data elements were moved to Edit – Student Data - MARSS tab
MN – Edit Student Sensitive Data – Economic Indicator has been added to this page

MN – Early Education Student File – fixed issue with County of Residence formatting

MN – Edit Student Early Education – validation for primary and/or secondary language codes

MCCC Course Index File – new validations for missing college & calendar info, Site Number set from course section

MCCC File Exports – now active for 2013-2014

Schedules - New Option: Schedule By Section - A random group of students can now be bulk scheduled into a section, such as putting students into study halls.

Import Test Scores – New option for importing STAR test results.

Import Test Scores – Fall 2014 update for NWEA test names (IA), handle alternative date formats.

Test Scores – New option: Export Star Roster File

Test Scores – updated definitions for: STAR, PALS

Submitted Grades Message on Home Screen - Message will disappear now after grades have been pulled in

Grades – Transcript Linker – now available at Grades – Transcripts – Transcript Linker (was located in Admin Options)

Grades – Credit Checker – Import Graduation Credit Requirements – new option to import both subject areas and courses at once, also includes summary of import.

Build 090514

GradeBook - Fix for emailing Progress Reports.

Schedule Into Classes - Relaxed time frame for requiring backdoor password.

Online Settings - Doesn't require JMCADMIN - just Student General Data privileges.

Switch Buildings on main page (right)

Import Test Scores – added MN Alternate ACCESS for ELLs test.

Lists - Updated Homeless fields.

Build 082914

Lunch – Grade Zero Pricing Groups – can specify different pricing groups for any/all grade zero groups

Emailing SnB Report Cards - The PDF honors the Landscape setting.

MN - Edit Student Early Education - no longer requires access to Health - It now uses the State Reporting privilege.

IA - SIF - Edit Student Data changes for non-State-Reporting students are now triggered (as per IDOE).

GradeBook - Progress Reports are internally compressed this year saving significant database size.

Build 082114

MN – Early Education Student File – revisions for EE Scholarship records, improved validations

MN - Health – MIIC Demographic Data Export – exclude students with no birth date; also includes summary listing students with no birth date

MN - Grades – Summary Labels – no longer include Grad Status line

WI – CWCS Student File – better handling of blank grades – gives validation errors and excludes records

Lunch – Lunch Status Report – new breakdown/tally for Direct Certification for FDPIR

Build 081914

IA - Health – IRIS Query and Patient Data Exports – exclude students with no birth date; also includes summary listing students with no birth date

Lunch – Direct Certification Notification Letter – new report

Build 072914

Attendance - Daynames - expanded number of days from 255 to 366

Home page - Display number of teachers that have submitted grades/standards & benchmarks

IA - *Certified Build for SRI for 14-15*

IA - Create File for Iowa Dept of Ed - Updated for 14-15 SRI

IA – Direct Certification Import - Updated for 14-15

IA - Health Immunizations - New options to import immunization data from IRIS download

IA - Import Enrollment History from Prior Year - Updated for 14-15 SRI

IA - Student Lists - Updated for 14-15 SRI data element updates

IA - Test Scores - Added and updated definitions for new Kindergarten Literacy Assessments

MN - Early Education Student - Updated for EE Scholarship, including siblings; also, new validations

MN - Health - Immunization Compliance - updated for 14-15

MN - MARSS - Capture MARSS B file - Updated for 14-15 MARSS reporting

MN - MCCC - Staff File - Added list of needed periods and terms for calendar

MN - Summary Labels - Added option to include/exclude Mn Grad Status line

MN - Test Scores - Added and updated definitions for Perkins Technical Skills Assessments

NE – Updated code tables for 14-15 school year

NE – Updated Special Education Snapshot (retired 2 data elements)

Student Data – added Confidential Comments – visible only by users with "Sensitive" privilege

Student Information Forms - Added student username and password

Student Lists - Improved retention of course section information

WI - CWCS Student File - Added validation for blank or missing grades

WI - Direct Certification Export/Import - Updated for 14-15

WI - Health - Immunization Compliance - New for WI and current for 14-15

Build 052714

Print Standards and Benchmarks - Fixed printing issue introduced in the 051914 Build.

Build 052314

Message Center - Added Send Location to logs.

Homepage - Displays pending parent and student submissions.

Edit Contacts - Lengthened Phone description to 30 characters.

Edit Online Settings - Added Parent Homepage Note.

Edit Period Attendance - Added second Save button.

Import Course Data - Updated the Wisconsin version.

Student Submission Settings - Added Instructions to Parent area.

Build 051914

Print Standards and Benchmarks - Added ability to email if possible.

Print Student Information Forms - Added support for student email addresses.

Build 051314

Activities - Allow Adults to be added to Activites/Groups.
