

## Online Teacher Module

### Build 041819

-----

**A teacher listed as Advisor 2 can now see those student's grades, etc.**

### Build 032819

-----

**Reports – Edit Comments** – All 99 comments now show up and are editable

### Build 030119

-----

**Teacher Discipline Referrals** – Now use same Incident Location as the office

### Build 021419

-----

**Reports - Progress Report** – New checkbox named **Include Formative Assessment Summary For Each Student.**

**Reports - Progress Report** - When emailing, if a student is in more than one course section for a teacher, send one email that includes all courses instead of one email per course section.

### Build 011019

-----

**Communication – Communication Submissions** – When the office checks the **Allow teachers to view all accepted student communication submissions** box in JMC Office under **File – Online Settings – Teacher** tab, the teacher will be able to view Accepted Communication Submissions for all students in their assigned courses, not just the ones that teacher submitted.

### Build 010419

-----

**Changed Format of Home Page** – Make it compatible with JMC messages for teachers.

### Build 081418

-----

**Substitute Teachers** - Substitutes can log into Teacher Gradebook when linked to a teacher for a date/time span; added a Year term in preferences.

### Build 071618

-----

**Define Formative Assessments** - Minor label changes for clarity.

### Build 010318

-----

**Course Grades** - Fixed rare issue affecting final term grade when student changed sections of same course.

**Resources** – New resource videos for using extra credit.

## **Build 121217**

-----

**Student info** - Added Address Line 2 where appropriate.

## **Build 071417**

-----

**Assignment Scores** – Added “P” grade for pending score – doesn’t get used in student term grade calculations.

**Communications Submissions** – Similar to discipline referrals but more general in nature, teachers may send communications to the office regarding student behaviors, health concerns, and so forth.

**Resources** – Teacher Resources is a link to JMC’s website where various teacher resources are included, such as links for instructional videos, printed documentation, and so forth.

**Student Lists – New report** for querying students based on various demographic and other data. Many data items are available as well as multiple sort and selection options.

## **Build 061317**

-----

**Edit Course Grades** – When click on **Send Grades for All Courses to Office**, it will automatically calculate term grades for all courses before sending them all to the office.

## **Build 022117**

-----

**Assignment Summary** - fixed an issue when using X/LX/LI/M/MI/HI.

**Course Grades** - fixed rounding issue when using competency-based grading.

**Course Grades** – fixed issue when exam weights changed.

**Edit Assessments for a Student** – handle special characters.

## **Build 121416**

-----

**Course Grades** - Optimization of calculations.

**Progress Reports** - Fixed an issue of sending duplicates when emailing students.

## **Build 102116**

-----

**Added reminder note** to publish grades at the end of the term

**Deadlock Issue** - resolved

**Discipline Referrals** - added Action 2 and Consequence 2

**Edit Assessments** - preserve scroll position

**Edit Scores** —score note for competency based grading

**Login** - improved login speed

**Office to Teacher** - sorting fixed

**Schoology Automated Grade Passback** - Categories, Assignments, and Scores can now be automatically imported nightly from Schoology into JMC Online Teacher (grade book)

## **Build 092216**

-----

**Course Grades** - Clear Comments link returned to Course Grades page.

**Grade Alert Emailing** - list correct teacher.

**Discipline Referrals** - now includes Action 1 & 2.

## **Build 090316**

-----

**Calculate All Classes** has a send grades quicklink.  
**Course Grades** auto calculates and has quicklink to send grades.  
**Edit Assessments pages** have quicklink to send assessments.  
**Student info** includes birth date.  
**Default Term** - Teacher can now choose Sem1 or Sem2 as default term.

#### **Build 072516**

-----

**Office to Teacher** is *now automatically done* when you login  
**Email Student option** - Reports:Progress Report  
**Discipline Referrals** - records can now be added from the JMC Gradebook  
**Competency Based Grading** full release

#### **Build 060616**

-----

**NEW - Discipline Referrals from Teacher**  
**Edit Assessments** - Allow "Yr" term  
**Edit Scores** - No Student Summary while viewing Midterms to prevent confusion  
**Edit Assessments for Course or Grade** - Allow a "YR" assessment set term even for course instances  
**Edit Assessments for a Student** - Allow a "YR" assessment set term even for course instances  
**Publish Assignments** - Increased the publishing efficiency to speed up the process  
**Import Schoology** - Handle "Missing" score as "MI"  
**Assignment Scores** - Comments for Teachers set by Office are now visible

#### **Build 103015**

-----

**New Competency-Based Grading options** – currently being beta tested, check with JMC for availability  
**Student Medical Emergency Plan**– if a student has a medical emergency plan that has been specified for sharing with teachers, it may be viewed on Scores - Assignment Scores, Classroom Attendance – Enter Attendance, or Homeroom – Student Info. Teachers will know if the student has a viewable medical emergency plan if there is a Red Cross icon near the Info icon on Scores - Assignment Scores or Classroom Attendance – Enter Attendance. To view the student’s medical emergency plan click on the Red Cross icon on Scores - Assignment Scores or Classroom Attendance – Enter Attendance or on the Medical Emergency Plan tab on Homeroom – Student Info  
**Homeroom Student Info** – formerly listed as Homeroom – Student Contact Info, this option has been revised to include tab panels with various student data. Tabs included in this version are Contacts, Health History, and Medical Emergency Plan. The data for all 3 of these tabs is maintained and controlled in the JMC Next Gen Office application and is only viewable in this Online Teacher option  
**Edit Student Assessment Report Card** – new page for editing assessment information in the custom form view  
**Teacher Lunch Count** – expanded to 12 lunch counts  
**Progress Reports** – rare issue fixed for when Consolidate Classes option checked

#### **Build 083115**

-----

Extended Assessment comment to 300 characters  
Seating Chart - Fixed bug on initial load  
Standardized Test Query - Added subject area dropdown to selection

#### **Build 051115**

-----

Changed some pages to use a newer navigation method to make better use of screen space.

Standards & Benchmarks - Forms linked to individual students. Teachers' data entry screen mimics look of printed form.

#### **Build 041415**

-----

Enter Classroom Attendance - Added option (in Preferences): Show submitted attendance status.

Preferences - Reworked UI. Placed Current Term choice at top, removed need for Save button.

Categories and Assignments - Improved efficiency of Copying or Importing from courses.

#### **Build 030415**

-----

Student Standardized Test Query – Formerly Student Standardized Test List, this option now boasts several new querying features, such as test category, test name, grade level when taken, & score range.

Office to Teacher – no longer clears comments.

New page – Student Contact Info.

Assignment Scores - Added new score "HI" (Handed-in) which does not count against student (similar to "X" score).

Assignment Scores – added color coding for special scores like “HI”, “X”, ... Color assignments may be specified by the teacher on the Preferences page.

#### **Build 112114**

-----

Progress Reports - Fixed a problem where wrong comments were included.

Edit Assessment for a Student - Fixed error when changing to this selection after putting grades into Edit Assessment for a Course or Grade.

#### **Build 091313**

-----

Added the ability to import categories and assignments from last year.

#### **Build 090913**

-----

Option to Import Lesson Plans from Last Year.

Send Email option - Allow selection of multiple courses.

#### **Build 082813**

-----

Added new scores 'M' (Missing Exempt) and 'MI' (Missing Included).

Ignore apostrophes in last name when sorting.

#### **Build 082013**

-----

Course Grades - Option to calculate Year end grades.

Intructional Video links throughout the software.

#### **Build 081413**

-----

View Progress Reports - Fixed an issue with searching for students.

**Build 071913**

-----

Attendance Report for a Student - Option to search all students.

Attendance Report for a Day - Option to search all students.

**Build 071713**

-----

Missing Scores Report - Option to search all students.

View Progress Reports - Option to search all students.

**Build 051613**

-----

Edit Assessments - Handle Year end grades.

**Build 041913**

-----

Updated the navigation UI.
