Step 1:

Enter your school's jmc site address (URL) in the space provided.

Note:

You can find your URL by opening your Office module and looking in the browser address bar.

Click "Verify".

Note:

When you click "Verify" the app will make its first connection to your site.

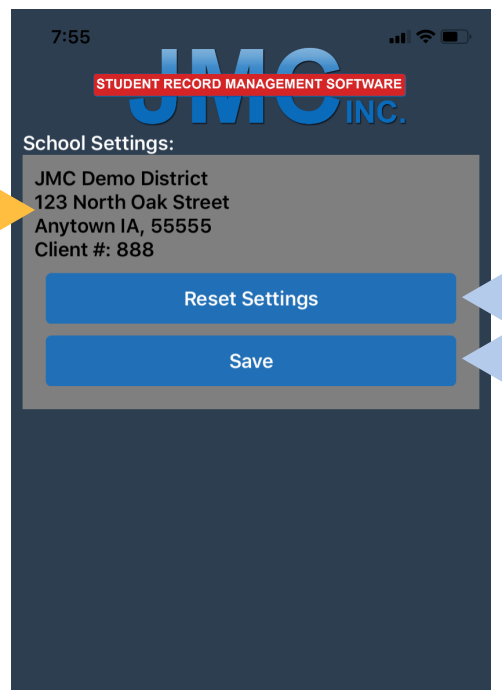

Helpful Tip: Make sure you have the right URL before your coaches and advisors to download the app.

Verify that the info under School Settings is your school.

Note:

If the info is incorrect, you will have to re-enter your URL on the previous screen.
