Why program history?

Program history is for school district programs where only a portion of the student population are in a specific program.

Some of these programs were tracked previously in other data elements, but more information was needed for the student program data.

Some of these programs are being reported for the first time in Ed-Fi (not utilized in MARSS submissions).

Program History Begin and End Dates

Must be within the current school year

Import Program History During Ed-Fi Onboarding

The screenshot displays the JMC Student Record Management Software interface. At the top right, the text 'STUDENT RECORD MANAGEMENT SOFTWARE' is visible above the 'JMC INC.' logo. The page title is 'JMC Demo District' and the school year is '2019-2020'. A left-hand navigation menu includes options like 'Home', 'View Student Data', 'File', 'Edit', 'Attendance', 'Activities', 'Communication', 'Health', 'Lunch', 'Tuition/Fees', 'Minnesota', 'Combine Files', 'Counting All Students (Ed-Fi)', 'Program History', 'Import Program History', 'Message Center', 'Form Design', 'Resources', 'Enrollment Forms', 'Online Payments', and 'Online Settings'. The 'Import Program History' option is highlighted. The main content area contains the following text: 'Importing Program History from the prior year is typically done after the prior school year has been completed and all program data for the prior year has been updated.' 'Although this option is generally run once at the start of the school year, it is safe to run it multiple times if needed.' 'If a student already has a Program History record for the same program in the current year then the record will not be imported for that student.' Below this text are two date input fields: 'Begin Date: 9/5/2019' and 'End Date:'. A section titled 'Check the type(s) of records you wish to import:' contains a list of checkboxes, all of which are checked: 'Coordinated Early Intervening Services', 'Early Childhood Screening', 'Economic Indicator', 'Gifted and Talented', 'Homeless', 'ELL/SLIPA', 'PSEO Concurrent', 'SAAP (ALC, ALP, CAP)', 'Section 504', and 'Title I Part A'. An 'Import' button is located at the bottom of the page.

Import Program History During Ed-Fi Onboarding

- ▶ **Scrutinize the import summary with clients**
 - Not all program history records will import completely as there are new fields in program history that did not exist in older data elements
 - Program History records may not validate during Ed-Fi submission if record not filled out completely

What if anything needs to happen to a student's program history record if the student transfers in and out of the district?

Best Practice is to:

- ▶ cap (end date) program history records if student transfers out
- ▶ make subsequent program history records if student transfers back in

MN Programs and Characteristics

Import Program History *from Prior Year*

- ▶ Not sure what we will do here yet
- ▶ May be that no records are importable
- ▶ If have option it will likely be used only when district achieves Ed-Fi Only implementation status (summer 2021 at earliest)
- ▶ Waiting for guidance from MDE

JMC prides itself on keeping up-to-date on all Minnesota state reporting requirements. All Minnesota state reporting options are contained in the JMC Minnesota module and include options for MARSS, MCCC, Early Education Student, Perkins, STAR, and Graduation Standards reporting. Before you upload your files to the Minnesota Department of Education, most file generation options in the JMC Minnesota module will generate an error report for you. This means you can correct nearly all issues with your data before uploading your files to MDE.
