WISEdata ELP Codes

WISEdata is Wisconsin's new statewide student data system which houses student data required to meet state and federal accountability measures.

Every student, English Learner (EL) or not, has an English Language Proficiency (ELP) code in WISEdata:

- For students who were never EL, (the majority of students), their ELP code is listed as 7.

- For students who are former ELs, having demonstrated full English proficiency, their ELP code is listed as 6.

- For students who are currently ELs, their ELP code is a reflection of how proficient they are in English, on a scale from 1-5, with 1 being the lowest, and 5 being nearly proficient.

ELP levels 1-6 stem from the WIDA English Language Development Standards, the basis for Wisconsin's EL support system. In this framework, ELP 1 indicates students with very limited English skills, while ELP 5 and 6 represent students with extensive English skills, nearly on par with native English speakers.

2. **ACCESS for ELLs annual summative assessment of ELP**

Students who are ELs (ELP of 1-5) must take the ACCESS for ELLs assessment every winter. ACCESS for ELLs produces an overall composite ELP score with a single decimal place, (3.7, e.g.) and this score is truncated (3.7 -> 3) and uploaded into WISEdata by DPI during the summer. Students scoring an Overall Composite of 5.0 or greater may be entered as either ELP 5 (still an EL) or ELP 6 (Former EL, Exited Services) based on the district's determination as to whether or not the student has achieved full English proficiency.

3. **Manually Entered by a district administrator**

In some cases, district administrators can override the existing ELP code for a student in their local SIS and replace it with one that is more appropriate for the student. This can occur:

- if a student has a 5.0 or greater Overall Composite ELP, and other evidence shows that they have demonstrated full English proficiency, the ELP code can be changed to a 6.

- if a student has exited EL status (ELP 6) but other evidence demonstrates that the student is not fully proficient, the ELP code can be changed to a 5.

Reclassification as Former EL

Students in all grades who achieve an Overall Composite of 5.0 or greater are eligible to be exited from EL services. Districts should consider other evidence of proficiency before making this determination.

If a student reaching an Overall Composite of 5.0 or greater is deemed to not be proficient, their ELP should remain a 5. If a student reaching an Overall Composite of 5.0 or greater is deemed to be proficient, their ELP should be changed to a 6 to indicate that they have exited EL status. WISEdata will accept either a 5 or a 6 for a student who scores at least a 5.0 Overall Composite.

Students reaching 6.0 on the ACCESS for ELLs must be exited from EL status. WISEdata will not allow a student with a 6.0 to be reclassified as EL with an ELP lower than 6.

Reclassification from Former EL to back to EL

In some cases, reclassification may not be appropriate for the student. If it is determined that a loss of EL services would be detrimental to the student, their ELP code can be changed back to a 5, and they will remain an EL. This is done in the local SIS, and WISEdata should not issue a warning when this is done.

LIEP End Date: For SLIPA it would be enrollment end date. So if its left blank we would treat it as 06/30. In case of student transferring to other school it should be end of enrollment.

In a scenario where student is enrolled in School A and exits School A but comes back so he has second enrollment within the same school. The end date of SLIPA is end of second enrollment.

When to Submit SLIPA and When to Submit SPA

Submit SLIPA assessment details and language program services for English language learner.

SLIPA not submitted when
- LIEP Proficiency = 7
- LIEP Proficiency = 6 and LIEP Monitor Year = "Not Applicable"

When to Submit SLIPA and When to Submit SPA

Bilingual class could be a mix of native speakers and EL. If native speakers happened to be in bilingual class, then it is optional to submit the /SPA record to show the student is in a bilingual program. The same applies to student who were previously identified as ELL/LEP (EL 6) and passed two year of monitoring if they are participating in bilingual class.
Do not submit SLIPA for these students.
