- You may simply pick the option(s) for updating only the data you need to, for example if you added a course, section, room (location), etc.

Near Real Time (NRT) Processing

To be introduced to Wisconsin Ed-Fi in 2018–2019

- Most likely in the winter
- Turn up for one school at a time
- Has been pushed off due to other WISEdata projects

NRT means the data is sent almost immediately to WISEdata when you save changes to a student, teacher, course, etc.

Scheduled Updates

To be introduced to Wisconsin Ed-Fi in
2018-2019

- Expected: Special Education (SSEPA)

- Turn up for one school at a time
- Example: SSEPA for schools who submit SSEPA via other software (SEEDS, OASIS, etc.)
 - Still need to have these records in JMC even if don't originate in JMC
 - Reason – discipline reporting

- Minimum – Weekly

Actively work to correct errors on a regular basis
