Special Education Overview

If something changes in the student's special education services, *cap off* the first record and start a second SSEPA record for this student.

To “cap off” the initial record, click **Edit on Initial Special Ed History record**

Enter Spec Ed End Date

Enter Reason Exited

Typically “Continuing in Special Education”

Click **Update** button to save the changes for initial record

WISEdata Special Education Overview

Next to create the subsequent record, click the **Add Row** button to create the second record

By default new record will come up with same data except Spec Ed Begin Date will be one day past the exit date from pervious record

Click **Edit** on new Special Ed History record

Enter the changes in the student's special education services, then click **Update** button to save

WISEdata

Special Education Overview

Discipline and Special Education data are interrelated

- Some suspensions are only reportable if the student is “disabled” (special education)
- Some suspensions are only reportable if the student is “nondisabled” (regular education)

WISEdata

Special Education Overview

- Make sure your Special Education (SSEPA) data is up-to-date before submitting discipline data
- If reporting SSEPA from JMC, make sure the Special Education History data in JMC is up-to-date
 - If reporting SSEPA from Third Party Software (Sped Forms, SEEDS, OASIS), then use Wisconsin – Special Education History – Update Special History from WISEdata API to bring copies of the students’ SSEPA records into the JMC special education history
 - Note – in these cases the special education history records in JMC will only be viewable, not editable. The Third Party software is where the edits should be made.

If checked, JMC is the “owner” of the special education (SSEPA) data and it is reported to WISEdata from JMC Special Education History records.

If unchecked, the Third Party software is the “owner” of the SSEPA data and JMC can only obtain viewable copies of these records via WISEdata.

WISEdata

Special Education Overview

Two main reasons to get SSEPA into JMC
Special Education History

- ▶ Makes student's special education status known in JMC for WISEdata discipline reporting purposes
- ▶ Allows staff to view special ed info on students without logging into Third Party software

WISEdata

Special Education Overview

Import Special Education History from Prior Year

Found in Wisconsin – Special Education History submodule

Used to bring special education history from one year to the next

Typically used just prior to the start of a new school year but after the prior year’s special education recordkeeping has been completed (mid–summer)

Note: This option is only enabled if JMC is the “owner” of the SSEPA records. This setting is found on the Ed-Fi Settings of File – Administrator Options

WISE Data Elements

<https://dpi.wi.gov/wise/data-elements>

The screenshot shows the WISE Data Elements page. On the left is a navigation menu with 'Data Elements' highlighted. The main content area has a search bar at the top right and a breadcrumb trail: 'CUSTOMER SERVICE TEAM / DATA COLLECTIONS / STUDENT DATA / WISE DATA ELEMENTS'. The title 'WISE Data Elements' is prominently displayed. Below the title is a paragraph explaining that public school districts and private schools must submit student information to DPI. A blue 'Download Data Elements' button is present. Below this are search filters for 'Search Page' (set to 'Military') and 'School Type' (set to '- Any -'). There are also filters for 'Collection' and 'Year', both set to '- Any -', with 'Apply' and 'Reset' buttons. A section titled 'Parent in Military' is visible, with a sub-heading 'PUBLIC SCHOOLS' and a note that this is new for the 2018-19 school year, defining the characteristic as having a parent or guardian in the armed forces.
