- Updating tables via API
- Display new course data in User Interface
- Data Submission Updates need to be coded and tested yet
- Certifications projected
  - A: early July
  - B: late July
  - C: late July or early August

What this means for today's presentations

- Information could change but should be close
- Follow-up webinar for any further changes in JMC will be scheduled after certifications complete
  - August/September/October
  - Best guess is will be under 1 hour
  - Will do as live webinar
  - Will record for those who have hard time attending during the regular school day
